Thread: [VB.NET Firefox, Chrome Password Recovery](#)

Tom2565 - January 15, 2018, 9:29 am

I managed to make a password stealer in python and convert it to a executable. thank you for help anyways.

Vyxn - January 15, 2018, 10:03 pm

Please. Don't code this thing. There's so much wonderful project than coding this kind of horrible thing. :(

You literally have a source that you can use & you still can't do it? Learn the language before trying to create hacking tools so you feel like an awesome hacker or so you can sell it & make money.

Sure i have the source. <http://pastebin.com/raw/eUEmtQUe>

But is outdated anyways
