Thread: [League Of Legends Elo Boosting | LOL Boosting Service | Cheap | Fast | Reliable](#)

tweety - January 16, 2018, 7:56 pm

TOS

1. You pay up front first, and then the service will be completed.
2. Chargebacks will result in your League account probably being banned if the chargeback is not resolved and I am not consulted.
3. If you log in during boosts without informing me, your boosting service will be permanently halted and you won't be issued a refund.
4. Chat is not used during boosts, if you are muted/banned after boosts, it is your own responsibility/fault.
5. You should be well aware boosting is against league TOS, so being banned/punished for this reason is not my responsibility.

Things to note

1. Sometimes boosts can be delayed/quick since losses can happen
2. Roles/champions are not something I can promise but will try to do
3. If you have insanely low MMR you may be charged an additional fee
4. I'm usually online so you can always send me a message for an update, or to use your own account
5. This service is primarily for NA regions, but can do others if required
6. Unlike other boosting services, no cheating/scripts/etc are used
7. Standalone games are \$3 each
8. Duo queue boosts will have a 30% extra charge of the total order for obvious reasons, this applies to solo boosts with tragic mmr and high ping servers as well

Accepting PP/BTC/ETH. Alternative payment methods can be discussed or if you have any questions , feel free to [PM me](#) - I won't bite

Coaching service is available for mid lane and ad role, PM/post below for questions

Compared to eloboosting services, this is pretty cheap.

biscuit deluxe - January 16, 2018, 8:28 pm

Do you support duo-queue boosting?

tweety - January 16, 2018, 8:34 pm

Right now, no. It's faster/easier to solo queue.

Goku???? - January 16, 2018, 8:44 pm

You probably should state with region you're boosting for.

EDIT: My bad, my reading skills are poor right now.

tweety - January 21, 2018, 10:36 am

All 5 discounts are taken, still taking orders.

Dotexe - January 21, 2018, 10:45 am

Wait, i don't get it ? "Chargebacks will result in your League account probably being banned if the chargeback is not resolved and I am not consulted." So if someone order boost, then you complete it and he chargeback/refund doesn't matter, how can you guarantee his acc will be banned ? you record games when you boost it or you play with scripts ? Anyway, the prices seems good :)

Edit: Also duo queue boosting should be good choice too, because riot wouldn't pay attention if the player is getting higher rate with partner.

Reporting an account for boosting as the booster is pretty easy since you can prove a lot of the info they usually ask for. I don't use scripts at all unlike most boosters. Hopefully we don't run into any issues of charge backs though.

Dotexe - January 21, 2018, 10:51 am

Nah, don't worry about chargebacks, i used to play in one account as well. Soloq is kinda meh to climb, so this is why i gave ya the advice with duoq, it'd be much better :P i usually dont care about scripts but many ppl are afraid to give their acc's ^_^

tweety - January 23, 2018, 3:49 pm

Sorry, I don't duo q. I don't need help (nor am I interested in helping others for free while my customers need to pay) as well as risking you scripting which may risk the boosting account for bans/penalties.

Finished a quick boost, open to for more today.
