Thread: [Add showstaff.php to the bottom of the site again](#)

Mark Zuckerberg - January 17, 2018, 8:17 am

I took a 3 month vacation ban and came back and it was gone

Not sure if it was removed on purpose or if it just happened and no one noticed. I found it quite convenient Im sure many others did too!

Forum software was upgraded.

Omni is still fixing a TON of stuff...

Trust scans still messed, and many other items are on his mile long To-Do list.

I am sure it will be addressed sooner or later.

(Jan 17, 2018 09:52 AM)Tsundere Wrote: [\[CITE\]](#) I appreciate your high-quality response as always.

Thanks.

(Both are technically at the bottom as he didn't specify Mr. Smarty Pants :)))!

I am the definition of High Quality baby.

But honestly...

I actually do not see where you see this one... I don't seem to have it.

Omniscient - January 17, 2018, 12:21 pm

It's on index page on the bottom. That's just fine for now.

Check out xadamxk's amazing extension: <https://hackforums.net/showthread.php?tid=5696924>

It has a lot of mods for this site including one that organizes the Who's Online list and has a section for staff:
