Thread: [\[All Members\] 3pic/L33t/Ub3r Upgrade Giveaway! | Ends 18th Jan.! |](#)

pinguoin - January 17, 2018, 7:21 pm

Hello everyone, i've seen a couples of "Giveaway" to upgrade a user, so since the BTC gap, i'll be making pleasure to someone else by this way.

I'll be giving away an upgrade to the following Rank that you actualy own on HF.
You must already have the requierements.

Rules before posting:

- Don't have a Negative reputation rate
- No open deal disputes (don't want to waste 20\$ on a banned account)
- Be the kind of user who is or Will be active on this forums, be helpful.

Post a reason why you should receive the upgrade, and I'll pick a user or more on the January 18th!

Dear Sir,

Posting to enter for 3p1c <3
thanks for this. Good luck to all

Reason: I help out a lot of people via PM and need my time limit for messages removed.

I have been hoping to get Ub3r for a long time now, but I really can't afford to upgrade myself at the moment.

However, I feel that I am a high quality user with a bright future in these forums. I've never got into any incidents involving negative reputation.

Thanks so much for this generous giveaway, OP!

I'm posting to enter for Ub3r. I've been active (did just come back from a few months break) for a few years now, only getting L33t in the past 18 months. I usually help others on the forum or engage in discussion on various topics. Being Ub3r would help being recognised a bit more.

Thanks for hosting this OP.

AlphaTurtle - January 18, 2018, 9:53 am

Posting for ub3r.

I'm approved just couldn't afford to buy it :)

I hope I get the upgrade because I'd love to be able to use the marketplace, give more rep, and of course for that awesome blue :)

Been on this site for a couple of months and found it very useful. Always willing to help a person out on a problem or willing to settle a dispute. I am always giving knowledge and willing to receive.

Posting to enter for 3p1c as after almost 4 years here I haven't been able to get it and the benefits are super helpful.

Thanks for the giveaway regardless of who wins. :)

MrShakoz - January 18, 2018, 9:46 pm

I would love the upgrade because I wish to become closer with HackFourms and start to contribute and get involved with HF. Cheers!

Minus9 - January 18, 2018, 11:59 pm

I would be interested in this due to the fact that I have been much more active later and helping people in different sections, whatever I have experience in. An upgrade would be nice due to the fact that the perks is crucial for my stay here to be able to do business more efficiently and have perks that could assist me even further here.

Cheers.
