Thread: [Do You Have An Unpublished Page?](#)

MSteel - January 18, 2018, 12:17 am

Hey guys,

So while travelling in India I met a dude who worked at the Facebook there. He also gave me some insight about the unpublishing process and methods of getting pages back.

When I flew back home, I spent a few weeks testing out what he had told me and may have found a method to get back viral pages (500k+) - tried it on one of mine and it worked.

I wish I could test more but don't have anymore unpublished pages. If anyone is willing to let me try and get their page back let me know. (I want nothing in return - just want to see if my method works).
