Still selling! Make 50-150 A Day !!!!

boughay - January 28, 2018, 2:02 pm

can I know what it's about before buying it?

Personally have made around \$100 in the past few days using one of the methods in this guide ?

I purchased the guide and this is what I found; This guide has potential to work, however is somewhat tedious and will not work 100% of the time, you could quite easily go days without earning any money at all. This guide is also somewhat saturated too.

Prior to what was said above, you can make money, more than definable. However with regards of 50-150 a day, I think 10-50 is more realistic, however good ebook.
