So I haven't uploaded a video in 2 weeks mainly because of my graphics card dying, I got a new one and rendered a video.

I made this in about 15 minutes, what do you guys think?

I like the text styles, and the scanlines.

Solid 8/10 design imo.

Maybe a little less overpowering shadows though.

off-topic: what game is that?

I think it is great that you are not using red arrows, however they are beneficial.

I don't know much about GFX but as a person who watches youtube I'd click on that thumbnail
