Thread: [sql-injection-scanner.com - Online SQL Injection Scanner](#)

limalinfinita - January 20, 2018, 5:02 am

Yo yo yo check it out:

<http://sql-injection-scanner.com/>

Is the best SQL Injection scanner out there.

No .exe's, no downloads, no ads, no bullshit.

Only fast fresh 0day SQL Injection Vulns.

Just post a dork and press start.

The scan will begin. At any moment you can check your private log to have access to your own PRIVATE SQL INJECTION VULNS LIST.

ALL THIS AND MUCH MORE COMING FOR FREE MY DUDES!!

Straight from USER ID 6 at hackforums. Yeah check it out I'm an Old G.

SO GO AHEAD:

[img]<http://sql-injection-scanner.com/printscreens1.png>[/img]

Tutorial:

Just use it like you would use google or any other search engine.
It has the standard dork "inurl:php?=id+"

You just insert a word or 2 or 3 or whatever and press start.

For example:

inurl:php?=id+hacking

inurl:php?=id+sexy+ass

inurl:php?=id+bling+bling+bitches

inurl:php?=id+site:gov

inurl:php?=id+site:nasa

inurl:php?=id+1+site:com

inurl:php?=id+intitle:secure
inurl:php?=id+intitle:hackers

Just play around, doing combos of dorks.

After all the scan is done, check your private log to have access to your own fresh list of SQL Injection vulns.

???

ps: if you are a member of any other hacking forum or board, could you please share it?
Thanks! KEEP IT UP HOMIE yeah buddy !

I'm actually shocked by your UID lmao.

Anyway, thanks for this homie. I'm checking it out right now.

Edit: It's definitely working mate.

icerici - March 6, 2019, 4:38 am

the web is down, any other online SQL scanner ?

mrmrf - March 6, 2019, 10:22 pm

Death website not working

Pls update something new.....

DOCTOR_1738 - September 24, 2019, 1:28 pm

Website not working i'm afraid

might as well close the thread

Tyr - September 26, 2019, 12:11 pm

I'm gonna tell you something that some may not agree with and others may. It is crucial to practice investigating sites for flaws 100% manually at the start. Read guides on how to do so but using a vuln scanner will not teach you as much.

Unless you are well versed in how SQL works and such already or you are just in a rush. It is much more rewarding and it will teach you A LOT about web security.
