Thread: [Want a "Lambo" for BTC?](#)

#TDR - January 20, 2018, 1:22 pm

I found this website recently and I have to say it is a pretty unique idea that you can purchase even a "Lambo" for BTC. I've seen many websites, where you can purchase some PC components for BTC directly, but this kinda surprised me.

Check it out by yourself: <https://www.moonlambos.io/showroom>
(I am not affiliated in any way with them, but I wish I was, haha)

That's an interesting idea lol. Too bad I can't afford one at the moment :(

Holly shit, pity that I can't even afford a car for 5K \$:D But for me I'll go with Audi R8 :)

That's pretty cool actually lol.

I wouldn't get a lambo though, my dream car is a Nissan GTR

If the project is successful I believe they could add even more affordable cars to reach a wider audience and get more (potential) sales.

A friend of mine sold his BMW 6 for 1.5 BTC during October. We even live in a small country. The demand for Crypto is big haha

Buying a super car with BTC will cost you a rather large amount daily.

This is actually really annoying to look at, since I had 6 BTC at some point when BTC was around

400\$ a pop, and if I would've kept it I could purchase an Audi R8 but NOPE.

This is a great step for bitcoin, as it is worthless and not tangible. A great idea.

This seems like a good way to cash out BTC.
