Thread: [Need a banner for a Shopify store FB page](#)

Xrossfaded - January 24, 2018, 4:23 pm

Its for a women's accessory store Facebook page.

I want the text to read "Access, the one-stop accessory shop" and look feminine yet professional, like the logo.

The logo of the store is linked below.

<https://imgur.com/a/sDKZa>

I can venmo \$5 to the artist I like the most. Not sending \$5 btc because the network fee is \$12.56 right now.

Thanks ?

I assume that you need a banner for your cover photo in FB. I made a design for you. Check this out:

It would be nice if you can provide us a high-quality logo of your store because you provided a blurred one.

If you can't, at least tell us what font did you use for your logo so that we can imitate and make it HQ easily :)

Also tell me if you want to tweak something in my design. Thanks :)

This looks great! I think I need to redo the logo because I cant find a hi-res version and can't find the original pic I used or the font :(

Would you have any tips to make it look more high-res or could you make one similar?

Please let me know. Thanks!

You can make a vector graphics of your logo. With that, your logo can be scaled in any sizes without affecting the quality of the logo.

I can help you to create a vector version of your logo if you want, but please give me 24 hrs to do it because i have other projects to finish ;)
