Thread: [conversation about ewhoring went terribly wrong o.O - what a poor guy](#)

.KPG. - January 25, 2018, 2:16 pm

So I was not going to upload this. But this escalated quickly, and I don't want to be called a "Scammer" just because I don't share the information, which is the keyfeature in my premium ewhore guide for free. So I thought, before people think I scam people I better upload it before this dumb guy post something bad about me or give me bad rep.

User is terrahigh, he wrote me this first:

I answerd nice, I guess:

Conversation went on:

And after that he sent me this ?

As I said, please don't be mad at me for posting this. I am not a person who wants to make another persons name "bad" or something. But he called me a scammer, but I am not a scammer. The guide I am selling is real and I've put a lot of work in it. Just because I don't share the information and my guide has not the most sells here it doesn't make me a scammer. I just want to protect myself, before he spams out my name and calls me a spammer, so I thought I post this.

I don't like to badmouth other users but I have had conversations with the user in question and it seemed to me that they were looking for someone to spoon feed them methods.

Op didn't do anything but protect his business. And that's the right thing to do.

I'd rather see another "how do I ewhore???" post than this trash of a thread.

Had the same experience with said user.

Alright :) Since the user, seems to be trying this a lot. Can someone do something about it? It's probably not even disallowed here what he's doing. But I don't know :D

Such a silly point of argument.

Why give out something for free when you can charge and have been charging people for it.
KPG, congrats on pulling an idiot to light.
