Thread: [\[All Members\] UPTO2 3pic/L33t/Ub3r Upgrade Giveaway! | Ends 30th Jan! |](#)

pinguoin - January 25, 2018, 2:41 pm

Hello everyone, i've seen a couples of "Giveaway" to upgrade a user, so since the BTC gap, i'll be making pleasure to someone else by this way.

I'll be giving away an upgrade to the following Rank that you actually own on HF.
You must already have the requierements.

Rules before posting:

- Don't have a Negative reputation rate
- No open deal disputes (don't want to waste 20\$ on a banned account)
- Be the kind of user who is or Will be active on this forums, be helpful.

Post a reason why you should receive the upgrade, and I'll pick a user or more on the January 30th!

Have Fun! =)

5 Day to go, if it gets more then 50 different user, i'll be giving away a second :)

// In case where it goes to someone who is ready to receive the uber upgrade, we will simply get in touch by pm then i'll pay the payment address (if possible i need to read the TOS on this first or simply ask a High user)

Jake???????????????? - January 25, 2018, 2:51 pm

I'm approved for Ub3r and see this site as probably the only good site i'll ever visit of it's kind(forums).

Would love to get upgraded, I'm not gonna pretend I've done something amazing for the forum tho. I've just gave away an ebook and run a service, try to chip in every now and then in the social networking area giving advice and using the currency exchangers here to benefit the "hf economy"

The Piggy Bank - January 25, 2018, 2:54 pm

I want to be upgraded because I like the blue color. PS: Very generous give away!

Legitimately - January 25, 2018, 4:53 pm

"Don't have a Negative reputation rate"

Does this mean I can't have a single negative reputation point? Or do you mean negative in reputation in general? If you mean in general, then I would love to enter for a L33t upgrade. I don't necessarily think I deserve to be upgraded but I would love to have those extra feature on the forum. Being able to give users positive reputation for their help and kindness would be amazing. Being able to post in sections that I'm not able to post in without the upgrade would also be very nice. I can't really afford to upgrade myself at the moment, nor do I have any cryptocurrency to make the upgrade myself. ?

I just want to wish everyone good luck, and thank you for hosting this wonderful giveaway. <3

SIM-3467872 - January 25, 2018, 5:07 pm

I'm approved for ub3r upgrade and I would love to get it since it offers some wonderful powers and I believe I will make a good use of it. Thanks OP for a wonderful giveaway.

Pablo Escobar - January 25, 2018, 7:01 pm

First of all thanks for doing the giveaway mate.

The reason I would like to be upgraded is that I don't have money to spare and buy the upgrade and neither I have a way to pay and if I will be upgraded then I can help other members here and will help the community if I will be upgraded I'll have more options than normal members and my respect will be increased and I'll always be ready to help the community members and community it will be nice for me if you upgrade me to Leet. Thanks

[BLANK] - January 25, 2018, 8:56 pm

I will be approved for Uber in a couple weeks, I would love the upgrade so I can continue to provide quality posts at longer length. I also would like to be able to rep good users and neg rep bad users to help keep HF a high quality website. Thank you for your consideration.

Lufasu - January 26, 2018, 3:14 am

im approved to be ub3r, would like to finally achieve that....
thanks alot

HeretoHacknow - January 26, 2018, 3:19 am

Why should I? Currently working on getting new laptop then will be integrating myself further and further into community. Firm believer of pay it forward. May not win a damn thing before im able to do my own competitions, but they will happen no matter what.

flavoral - January 26, 2018, 3:20 am

Correct me if I'm wrong, but you can't upgrade people to UB3R unless you're one

Uose - January 26, 2018, 5:51 am

I want to be upgraded because i am good :) tnx for giveaways

Leo Mikaelson - January 26, 2018, 5:59 am

I would like to enter for 3p1c..

Reasons are to do with PM limits due to me releasing a few different free products on here shortly.

Exactly this. OP, unless you're Ub3r yourself you cannot upgrade anyone to Ub3r.

caveofwonders - January 26, 2018, 7:16 pm

I'd like to be one so that I have the ability to rep people. There are some that did me a huge favour, but I am unable to rep them.

That, and I'd like to get rid of this noobie feel. I've been on here every day and I already feel home here. A lot of good people here. So I wanna remove this "new member" tag.

I really have nothing to offer other than social life, I am mostly here just to learn. So I'm not sure if I'll be able to provide any free ebooks as some people mentioned.

Anyways, thanks for doing this, you're really sweet for doing so.

GhostLikesToast - January 26, 2018, 8:51 pm

I'd like to receive the 3pic upgrade if possible. Reason being, I'd like the 3pic username image on my account, and the main reason: I'd like to be able to search HF without having to wait 30 seconds EVERY time. With 3pic, the search flood limit gets reduced to just 1 second :) Not to mention, I'd GREATLY appreciate it! And you can rest assured that I am very HQ, and wont put the upgrade to shame or abuse it in anyway.

If I end up winning this upgrade, please let me know! <3

That just means your ratio isnt currently negative. With some discriminatory exceptions of course.

Byte-Array - January 26, 2018, 9:11 pm

well I want to join this, even though I ever win anything in life but still lets try. Joining for Uber.

decended - January 26, 2018, 11:48 pm

I would like to receive an upgrade because I feel that with an upgraded account you're more likely to get noticed and you aren't seen as a leecher as much. I would also be more active, seeing as it would give me a reason to be active.

Thanks for hosting OP.

B0Trun - January 27, 2018, 12:13 am

Posting to enter this contest and I am daily active on HF to help the community , also approved for Uber

Thanks for organizing this contest OP

Dr.Hurlu - January 27, 2018, 3:08 am

I'd like an Ub3r especially for crypto currency to paypal and viceversa trades ... thanks for organizing the giveaway and good luck to everyone.

AlphaTurtle - January 27, 2018, 3:16 am

Hey man! I've been waiting for this.

I am approved for ub3r and I would love the upgrade because I'd have more recognition, I could use the currency exchange section and of course that really nice userbar.

I guess if you can't upgrade an ub3r you can send them the btc/eth/ltc and they could upgrade themselves.

xscatta - January 27, 2018, 3:23 am

I'm approved for Ub3r

I would use my newfound Ub3r powers to be able to do currency exchange and keep editing the same post.

Good luck everyone c:

Shaggy - January 27, 2018, 5:37 am

I like to be upgraded as a L33t

I want to these kind of things with it.

-Ability to change username = I want to change my Username because this is getting old plus it's part of my name which is not really convenient if I post in hacking section. I want to change it into something creative.

-Ability to create custom usertitle = Don't have a much in this but this is pretty cool feature when I want to show off my former group logo.

-Ability to give positive and neutral reputations = This will help me provide a thank you for those who helped me on my adventure on the hackforums. Because you got to give them credit since they earned it.

-Ability to add an image to your signature = This is great for me for advertising my own products or Advertising someone's Products and maybe Sell of my signature space if anyone is willing to buy or rent it. That would be great.

-Ability to upload your avatar = Like I said along with my username this will help me fit my role as what i changed my username into.

-Access to all member forums = I am not exactly sure what is this but it's still an addition to my adventure on HF.

-An HF IM XMPP (hackforums.im) account = Not so sure about this but it will be a great handy to have a IM with other members.

-Removal of Lounge post limit restriction = I'm rarely in lounge so I don't really need this but if that time comes I wont get restricted which is good.

-Can edit/delete your own posts up to 30 days = I think this only applies if I am unsure of what I post in a topic or thread.

-Can self-close your own threads = This is very useful to me when I have some Limited Product/E-Book to share with fellow members. Once it's saturated I can close it and they wont pm and post anymore in my thread.

Max Post Length setting is 12,000 characters = Don't really know if my writing now can reach to 12k words in limit or if I am allowed in this length to say my point that I want the upgrade.

-Can view a members Post Activity statistics = This could be useful when I am looking for someone who can rent out their signature space and show their statistics.

-Ignored members cannot view your profile = I only have 1 person whom I hate in this person it's the time to ignore him!

-Private message box of 1500= Being an 3Pic has 10.000 Storage in PM's so I dont need this now

-Removal of advertisements = Ads Doesn't matter me. I look ads as a fun to read when the internet is slow

-Bypass Prestige requirements for posting in certain sections = Prestige problems for me only met with im posting on CS:GO Subforum

-Bypass posting requirements for sending private messages = Never encountered this so I have no

idea what this is.

-Ability to post in the Science, Religion, Philosophy, and Politics forum = I do need some Philosophy threads sometimes to clear my mind.

-Special l33t member group icon = Makes me look a little more badass with that l337 Icon under my name.

-Gauth 2-Factor Authentication account security = Won't use it will only cause me problems if I forget the passcode.

? Goodluck to all! ?

Hey, first of all: it's nice you're doing a giveaway for the hackforums community!

I want the upgrade because I'm already on here since 2015 but still didn't got the money to upgrade

my account :[

I'm online quite often.

I also got use an upgrade because for some things here you pretty much need an upgrade. Such as (some) exchanges, free ebooks etc. etc.
