Thread: [FUD Silent Word/PDF Exploit Wanted](#)

balrog - January 25, 2018, 3:14 pm

I'm in need of a fud silent word/pdf exploit. No macros. I'm ready to pay for it no matter the cost. All i ask is you don't waste my time and only contact me if you have what i need. Don't bother trying to scam me. I will only work with hf's trusted middleman, minimalist, and funds will only be released after the product has been fully tested. I can be reached here or on jabber (chaplain@xmpp.jp).
