Thread: [Free 3 Month License to OverSeer RAT \(Silent Miner RAT with inbuilt crypter\)](#)

OverSeer - January 26, 2018, 6:14 am

We are giving away 2 free three month license to OverSeer! Full details of the product can be found upon clicking on my signature. In order to enter, you must have my signature as yours for three days. PM me if you are participating and I will add you to a list of users with a number next to each. After 72 hours, I will use a random number generator with a configuration corresponding to the number of users entered in the competition. The two users that are selected will receive everything in the normal 3 month package including full support and setup. You will be provided with a download and a license key.

The countdown will begin on 1/27 at 10:00 AM EST. Late entry is allowed up to 24 hrs after the countdown begins.

Good luck!

I suggest this thread be closed, OP cant be trusted with any downloads.

OverSeer RAT is nothing but Quasar re-themed, OP has disputes open already, and it is suspected to that he has backdoored specific version causing others compromised accounts.

DO NO TRUST OverSeer with ANYTHING, if he sends you a file, DELETE IT.

You are asking for fucking straight up malware....

Might as well ask OP for Wannacry and just blindly run that too... ??? ???

Riyu - February 2, 2018, 2:35 pm
