Thread: [Can you tell me if this slow solo sounds too repetitive](#)

Manalishi - January 26, 2018, 1:26 pm

Let me know what you think please.

this is comfortable and peaceful

the beat is like john mayer - gravity

hear it

Thank you,

yea the beat is just a backing track I found on youtube. It's in E-minor. Unfortunately my high E string broke just right before I tried to record this so the change in tension threw the guitar slightly out of tune.

CueBasE - January 27, 2018, 3:52 am

Sounds really good dude.

I love a good blues guitar solo.

I forgot to ask earlier, but do you play blues guitar also?

scam. - March 16, 2018, 3:23 am

I like it man good shit

Making me wanna bust out the harmonica

Nah barely ever even play it

Bought it because I needed one on a song i was making and i only ever bust it out to record a lil something
