Are you selling things to people when using this eBook?

No, nothing is being sold. This is not close to eBay/Affiliate Marketing. Method could get saturated at one point though it is profitable to invest on because it guarantees profit.

NOTE: This is not mining cryptocurrencies!

earnings are over \$170

Hello!

1. What kind of investment, tools or software is needed for these methods?
2. How long is your training guide or video?
3. Is this a simple method to setup for complete newbies?
4. Does this involve trading or gambling?
5. How long does it take to setup and start?
6. What kind of maintenance is involved to earn \$10+/day?

Thanks!

1. No need to download any tools or software. All you need is a computer (laptop works too) and some initial investment (\$20 is a good start).

2. Comes in a .pdf format. Consists of about 5 pages.

3. Yep! As stated in the thread, this is User-Friendly! Anyone can do this, you don't need to be intelligent to do this as I explain everything you need to do in the ebook.

4. No gambling or trading involved.

5. I say about 15-20 minutes.

6. You have to just visit the website and do some quick task.

Note: Your profit depends on how much you invest. \$20 is a good starting investment since you can make \$1 - \$1.5 per day with it.

silverstar - February 5, 2018, 7:25 pm

Thanks for your reply to my questions, Potatoman! :)

100% vouch for this method and the bonus method! I didn't know either before. Both are easy to understand and well-written. Definitely a good value for money!

If you invest \$20. You earn like \$40 back in 1 month.

WHats the minimum and maximum investment?

Nope! As said in the title "Guaranteed PASSIVE INCOME". This is 100% safe. 2 things will happen. You either earn money and you success, or you don't earn money and I refund you. I'm 101% confident that you will make money with this.

I'mma say the minimum is \$0 because you still can earn money with this without money however it is not ideal for you make a very few amount. \$10 or \$20 is a good investment amount while \$250 is the maximum.

(Feb 6, 2018 01:10 PM)cooldude1 Wrote: [\[CITE\]](#) I'm interested in this as well. Also, what am I investing in?

I'll hide their name by calling them "seeds". You buy these seeds and they make you money! It ain't individual stocks nor real estate though.

Are there any country/technical or whatever restrictions to use this method? Also, for how long you guess it will stay working?

Alright, I will ask my recent customers to leave vouches since they do not bother to.

As far as I know, there are no country limitations or anything, can both be done on mac and pc. Honestly, I'm not sure how long this method could last, but if you ask me to estimate it, Probably a

year.

Leaving my opinion on the guide.

The guide is straightforward and detailed on how to make easy passive money. We are talking about a 10 minutes/day spent here. Even a noob like me (who just started these online money making things) found it easy to follow. You're going to need investment if you want to start making money faster.

I made just a small investment, so it's going to be a bit slow. Will surely leave my earning here when I managed some.

TL,DR; great guide, noob-proof passive income maker.

How did you acquire the eBook when you are unable to PM and have only posted this one post on your entire account.

This is why I don't buy eBooks.

Actually, you can buy it directly from Selly without having to mp the owner.

But I give it to you, seems bit odd as first comment to already give a review

It's a PASSIVE income.

Yes, you can use social media. You can refer people with this and earn percent of their earnings.

This doesn't take HOURS to setup. Just follow the steps (VERY EASY) and in just 5 minutes, you are fully ready to go. This is unique and does not have any similarities with other method whatsoever.

I've started fresh and new and invested \$20.00 two days ago and already have earned \$2.68.

You don't have to do much, could be a side passive income.
