pretypoorsage - January 28, 2018, 6:07 am

THE FAT RICH KID AUTOPILOT MONEY MAKING SOFTWARE

No thread design because I'm fat and lazy like that.

This is an E-book teaching you how to download a free software, register a free account, running the software with your FACEBOOK account and make money automagically.

The software will collect ads through your Facebook account automagically

The collected ads will represent your earnings. Your earnings varies from \$0.6 to \$0.4 per ads collected. For English country ads you will receive the highest, for Non-English country ads you will receive the lowest. Honestly, who cares? Its free money.

Minimum withdrawal is at \$50. Only to your PayPal account.

THE NOT SO FAT REQUIREMENTS

A Facebook account. The more the merrier.

OPTIONAL: Credit/Debit card to be use on Amazon Web Service to launch VPS for free (so you can set and forget!)

THE FAT PACKAGE

You get the E-book.

No support. Or more like the "lazy" support. I'm actually a nice person, if only you are being nice towards me. If you have an issue you can just PM me or drop me an e-mail (you will get my email inside the PDF) and I'll get back to you. I have a lot of services I sold online and my customer support usually slow but hey, I do reply every single one of my customer inquiries (even though I'm lazy like that)

No refund. Really guys?

\$7.99

Some Grandmother Story

I've been running this method for almost a year now. Only share it among my friends. Honestly I thought this won't last, but for some reason the developer decided to RE-LAUNCH the product (I was surprise actually), so I thought hey, let's make an E-book and be rich! ?

No seriously, for the price I'm selling this, it is a no brainer. I'm withdrawing over \$150 a month and you can actually scale this up. Just need more Facebook account. My friends whom I taught how to do these end up making hundreds more than me. They bought U.S Facebook account, and scale it up like crazy. I don't rely on this method (i set it and forget) because I've other ways of making money myself. So yeah, that's my grandmother story. This is your chance! Live your Dream! Be the Fat and Rich kid with his own autopilot money making software!

Edit:

10/10

The ebook is 31 pages long. It is an easy read and contains tons of pictures, thus everything is easily understandable.

8/10

Honestly, I've seen sh*t ton of methods in the course of my life and I've never seen anything like this before. Why don't I give it 10/10? The reason for that is the fact that the method technically does not work on every platform and is limited to Windows(as far as I understand), but you can do it by using a virtual machine or Amazon AWS(tutorial for setup is included as well). I have yet to try it myself and I am going to set it up and return a week later with possible earnings, but I can see this method earning you a decent extra money.

10/10

Although English is not my native language, as far as my knowledge goes - I did not overcome anything, grammar-wise, that would cause problems understanding the key points of making this method work.

9/10

I just want to add the fact that I don't know the author personally, but so far I think that for the price this ebook is a steal! It's really cheap compared to what you can gain with it and I don't see it getting saturated. Highly recommend everyone buying it!

Cheers! Good luck with sales OP!

Pros:

1. Seller provides good support and answers all questions quickly.
2. Fast + Easy to setup and get running.
3. Pretty good price for this method.
4. Completely autopilot

Cons:

1. Earnings are not .60 for each ad (USA/CA). I've been getting .05 for each ad which means that getting to the \$50 threshold will take forever. :(

* I'm currently at \$21 so almost 1/2 way there after about 1 week. If the earnings per ad were to increase, this would be a great set and forget method. Until then, I hope I can hit the \$50 threshold by next week and I can cash out successfully.

GL! :)

It as simple as Run software > Collect ads > withdraw money.

Hello!

I'm interested in this, but I have a few q's for ya...

1. Will this involve our FB friends on our accounts in any way?
2. I have 2 USA FB accounts. Any chance these FB accounts will get banned with this method?
3. Roughly, how long would it take to reach the \$50 withdrawal threshold with 2 USA FB accounts?
4. Do I need a Windows PC (or VPS) for each FB account I have?
5. About how long will it take to setup and run (I already have a Windows VPS)?
6. Can this be used without issues on a brand new account (that has no friends or a few friends)?

Thanks! :)

I'm interested in this, but I have a few q's for ya...

1. Will this involve our FB friends on our accounts in any way?

Nope. But the older the account and the active it is the better (because you have fresh ads everyday)

2. I have 2 USA FB accounts. Any chance these FB accounts will get banned with this method?

No, the software literally just log into your account and scroll your feeds looking for ads. That's all to it.

3. Roughly, how long would it take to reach the \$50 withdrawal threshold with 2 USA FB accounts?

I try to avoid replying this type of question because it varies. For me in a matter of a week I can get to \$50. For some of my friends it takes two weeks or more. For some of my other friends, they can get it in less than a week.

4. Do I need a Windows PC (or VPS) for each FB account I have?

A windows based OS is required because the software can only run on Windows. No, you can run the SOFTWARE multiple time on the same PC. Just replicate the folder.

5. About how long will it take to setup and run (I already have a Windows VPS)?

You can use it on Desktop or VPS (which I include the setup on my ebook). The software setup is really quick. Download software > Register account > Run software > login account > Login Facebook account > Start.

6. Can this be used without issues on a brand new account (that has no friends or a few friends)?

Brand new account have less ads. Less ads means less money.

Thanks! :)

A couple more quick q's for ya...

8. Can I use the same Paypal account for the 2 different FB account withdrawal?s Or do I need separate Paypal accounts for my 2 FB accounts?

9. Do I need a new ## account for each FB account?

The same paypal account on One of the software account. Contact me on my email for easier communication. I don't to disclose too much informations of my ebooks.

9. Do I need a new ## account for each FB account?

No. One "software" account can be use with multiple FB accounts. Make sure they are all from the same countries.

Hi Lmfao,

He asked for a vouch copy and I gave him one. I'm sure I didn't include a how-to-give-me-a-nice-vouch-in-return-tips inside the ebook. But oh well..

Also, I don't remember selling a method on how to be good at writing English. Maybe you're in the wrong section or forum in the first place, because.. I'm not selling those kind of ebooks that you normally get in Kindle store (here I went to a great length to get this link for you -- <https://www.amazon.com/Kindle-Store/b?ie=UTF8&node=133140011> I'm sure that's where you want to be.

Back on topic, I wouldn't judge the quality of your e-book by it's grammar, but rather by it's content, if I was interested in buying.

I've talked to the admin of the site and yes they have close it but existing "users" can still claim by creating a ticket (follow the steps on my ebook).

So yeah, too bad for new users that bought my product after 24th February, since the site is closed you can access it so I'll be refunding you of course.

For existing user the link to the ticket support is in the ebook (its a different set).

I'll be replying all PMs and Email ASAP. Just reach home from holidays (chinese new years trip).

Will close the thread now since its useless to sell this anymore for new user.
