Hello Community, welcome to my free GFX Service. Before anything I want to clarify that I use this to IMPROVE & LEARN more and also because GFX is WHAT I LOVE. Also you should have in mind that Im also working/studying so I'll work as fast as I can ?

At the moment I'll try all related with design, but where I have more experience it's in thread designs , signatrures & avatars (begginer level). With the rest I didnt work that much but Im open to try and design with that too if required.

All vouches will be updated in this section.

Hey,

Are you able to make animated signatures/banners? If you want to get paid for it because it's animated instead of a normal picture I'm fine with that.

Can I get a signature that matches the thread design for my sales thread.

Are you still doing this, if you are can you make me a logo?

Alexander Gremory - April 15, 2018, 3:57 pm

I've been attempting to make a nice one for myself yet can't find anything satisfactory, so I would like to ask for help.

Size: 600x800

Style: Fallout Vaultboy - Zombie

Example Image: [\(Click to View\)](#)

Title - Shinobi: The RPG

Sub: Written by Fulcon

What I would like is for the title of the book to be on top (The RPG can be beside or underneath it if needed for better aesthetics), and then the author name written underneath.

Thank you for your time. Please let me know if you need any more details
