Residential Proxies

Premium 24 Hour US Proxies

Why should I use Residential Proxies?

- Make your web browsing more reliable
- Decrease the chances of you getting blacklisted by your target website
- Improve your privacy, security and safety
- Be more legitimate than datacenter proxy

What format are these proxies?

My proxies are all USER:PASS formatted

How much are your proxies?

Since my proxies are residential, and i can sell them for alot more elsewhere. I have decided to sell at 50 cent per proxy. A minimum of 200 can be purchased

What about a plan?

I will sell plans at the following pricing.

1 Day - \$30

3 Day - \$45

5 Day - \$65

7 Day - \$85

Accepted Payment Methods

BTC/ETH/LTC (Any crypto)

I DO NOT HAVE A WEBSITE RIGHT NOW, IF YOU ARE INTERESTED IN BUYING PLEASE SEND ME A DM WITH THE AMOUNT OF PROXIES YOU'D LIKE TO BUY OR THE PLAN YOU'D LIKE.

"I have decided to sell at 50 cents per proxy"

Is this per month?

FamousHater - January 30, 2018, 7:41 pm

so for one day i get 40k proxies? or can buy them from you for 50 cents per proxy?

if not what u mean then reword the thread

PMd you brother. Hoping to hear from you soon.

2SLickZ - January 31, 2018, 4:09 am

Are they all clean proxies or some are blocked by spamhaus?

cr0w - January 31, 2018, 11:56 pm

Can we get to choose the location?

Vitaly - February 3, 2018, 2:47 pm

Still taking orders, if you have any questions feel free to message me!

"Since my proxies are residential, and i can sell them for alot more elsewhere. I have decided to sell at 50 cent per proxy. A minimum of 200 can be purchased"

So you'll spend \$100 for 200 proxies for only 1 day access since they expire in 24 hours?
Seems a quite bit ridiculous.

Not to trash but to be honest that's exactly what I was thinking of.

What makes this service so unique that you think you can charge as much as you do? :)

I can sell my proxies for \$2-3/proxy elsewhere, im offering you RESIDENTIAL proxies for 50 cent each. I'm also offering you access to thousands and thousands of residential proxies for \$85 for 7 days of full access.

Note: Residential proxies aren't cheap or free to make, if you can't afford to pay 50 cent a proxy then you can use some datacenters! Hope that answered your question.

Initial - February 7, 2018, 8:52 pm

interested in this. im sending you a pm.

Vitaly - February 10, 2018, 6:18 pm

Still taking orders, may do this cheaper if your nice :)

Still taking orders, DM me if you have any questions!

Vitaly - February 12, 2018, 6:32 pm

Still selling this service, sold to three or four people and haven't had any negatives!

ReduxJS - February 12, 2018, 7:55 pm

Eh 50 cents is a bit much. You say it's "expensive" to do provide Residential but a simple load on a Botnet costs \$0.15 which then you can reverse socks them and there you go. Residential Proxy for 1/3 of the price you are charging.

These are legitimate IPs, purchased from ISPs. Not created from any botnet. I pay a monthly fee for access to these and I have to turn over a profit. I understand you may find it cheaper from a botnet but the quality of my proxies are worth the price. I have no experience in botnets so I don't really have anything else I can say about it

Rubentastic - February 13, 2018, 1:14 am

Can you get res proxies from the Netherlands?

What about speeds?

I have a very limited amount of other countries, less than 1000 proxies. Speeds obviously depend what site you are pinging to

Sent you about 4 PMs over the last few weeks, no response at all. What's up?

Galaxias' Service Review for " 24 Hour | US Residential Proxies | Other Countries Available", product provided by [SneakerSource](#)

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your service.

When I am reviewing your service, due to the lack of interface for your proxies (e.g. a website), I am only able to provide my review on the following things. The quality of your proxies (fast, reliable, described as sold)

The price of your residential proxies compared

Firstly I would like to thank you for providing well over 150 residential proxies for me to use. It was more than enough to suffice to test the reliability of your service, the speed, as well as whether or not they were indeed residential proxies. You responded in a timely manner answering the many questions I had about your service when I offered about reviewing it. You responded in a fairly quick manner and that shows you're serious about your business and that you wish to give your customers a great experience in buying from you. Because of my busy schedule I also notified you about extending the length of time of me utilizing your proxies, because, I was pretty caught up with work and school so, you did. That was kind of you.

Anyhow, the format that you sent the proxies in were very clean and simple (user:pass@ip:port) which allowed for easy copy and paste usage. And I went ahead and by hand, actually test over a few dozen proxies (unfortunate I was unable to utilize all your proxies as they would actually take me ages at the time I used them). They were incredibly fast and I had no problem browsing and searching the web with them! Each and every one of them lasted for a fairly great amount of time compared to previous service(s) I have used on this forum. Shockingly though, I was kind of disappointed that on some sites, it can pick up the proxies to be from a server (Cloud*****) but other services pick them up as a residential IP but in short, they are indeed residential proxies in most cases. Furthermore, you also extended my service, which means they last for a fairly long time, like I mentioned just earlier.

For the price that you're offering your service (or well product) of residential proxies, I believe it's at a very cheap price. Given that many sites online sell residential proxies for well over \$1-5 dollars for high quality ones, these ones are very cheap and can be used for an extensive amount of activities online. Whether you want to mask your IP, safely bypass a website's IP ban, or anything related that would require you to use a proxy, this is for you!

FINAL THOUGHTS

I noticed, or I do believe (but correct me if I'm wrong), that you are doing this service by hand rather than automated. My only suggestion is to possibly consider opening a website which would make the process much faster than having to wait certain times for you to be on to buy, get and use the proxies. It can be very annoying to wait for this when during certain times, users may need it instantly or as soon as they can but would then have to wait for your availability.

Nonetheless, I can confirm that you are indeed selling very reliable US residential proxies that last for a very good amount of time (on average well over 10 minutes).

Again, thanks for allowing Appraisers to review your product and I apologize for extensive waiting

time for this review.
