Thread: [Insert a link error.](#)

Pirate - January 29, 2018, 10:44 pm

Hi I cannot use the 'insert link' option in the thread editor, my browser gets closed without any messages every time I click on the button.

Browser: safari

Device : ipad2

do anyone else here have the same problem?

FamousHater - January 29, 2018, 10:46 pm

use firefox instead

problem solved.

hey that's cool thank you but my iCloud is locked so no extra app download.

can you tell me the manual code instead? I will use that every now and then.

The code you are looking for is

Code `[url][url]`
