Thread: [Jailbreak ps3](#)

SH?Đ? - January 30, 2018, 4:08 am

My ps3 is cech 2501a

4.81

So it is good to be jailbroken

Yes your model is compatible with E3 flasher, patches and custom firmware once you downgrade with flasher

SH?Đ? - January 30, 2018, 6:35 am

Here is a video

<https://youtu.be/PjQig98FdmA>

Will this video be of help

LongerWolferL34 - February 1, 2018, 3:11 pm

Not much. You will first need to research how to use an e3 flasher to downgrade safely (spend a lot of time on this it isn't too simple and you can mess up your ps3 if you aren't careful) and then look into custom firmware.

SH?Đ? - February 1, 2018, 10:55 pm

This video shows without using e3 flasher

LongerWolferL34 - February 2, 2018, 4:02 am

Read the top comment on that video

Yes this model is jailbreakable with a "E3 NOR FLASHER" there is no way to jailbreak it without a "E3 NOR FLASHER" Because you need to downgrade the firmware and then upgrade the firmware to custom firmware

Check the link for jailbreak/downgrade with Rogero
