Vouch for 3xploits this cheat is really good and not detected. I would not hesitate to buy this

vaxton - January 30, 2018, 2:41 pm

Vouch for 3xploits! He's selling the best pubg cheat.

It is always undetected and has a lot of options & features.

Note: you can profit a lot by buying this cheat by doing off-site boosting services for pubg.. (20\$ per chicken for random people)

Honestly seems like your lying.

First of all PUBG doesn't even use VAC it uses Battleye and Xigncode

Second of all I doubt you even have 2000\$ to spend on resell rights and there are a bunch of free sources out there

Had two bans discussed, but most likely manual bans from new death cam system

I am probably one of those 3 detections. I was banned because I used aimbot so obviously not because of the cheat.

any chance you would take csgo keys as a payment?

---Vouch an review---

Seller: 10/10 - Had a problem with my computer blocking the loader, helped me out with personal support. Had problems on paypal and he refunded each time and actually help me get set up on BTC, When available helpful and friendly.

Cheats: Everything works that is advertised except for names ESP, but so far undetectable and legit (Beware of manual bans from raging)

ESP: Picks up medical, weapon, vest ect, just not customizable for individual items. but still ESP is fantastic. can see players up to 1k meters away

Aimbot: can change FOV of aimbot as with range and how human it looks, works perfect but personally i dont use it

Memory: Instahit- When shooting no bullet travel, works perfect but i use it sparingly

no-bullet drop: same thing, works but i use sparingly

I fully vouch for this guy, affordable and polite. I think ill stick with this seller as long as he offers services. Its been an honor doing business with d3bug
