Thread: [Anyone have a PDF copy of microsoft visual basic 2015 reloaded 6th edition?](#)

Zboyz - January 30, 2018, 4:54 pm

I'm in need of this for my class. If anyone is willing to give me a download link I would appreciate it a lot.

This would be a picture of the one I need

Ninja - January 30, 2018, 6:17 pm

I couldn't find any download links, and I looked for a solid hour. If it is not too expensive consider buying it if you need this exact version.

I couldn't find any either. The ebook version is only \$40 compared to the 160 the physical copy is, but since it was 2015 I thought somebody would have had a pdf by now. Oh well

<https://www.scribd.com/document/339948700/9781285860268-programming-with-microsoft-visual-basic-2015-doc-pdf>

that?

Aeonhack Archivist - January 30, 2018, 8:58 pm

You can download the book as individual chapters (not sure if it is all chapters, but use the following pattern):

<http://www.toddiwema.com/assets/pdf/vb/vbChX.pdf>

replace the "X" with the numbers 1 through 14. Hope that helps.

I'm honestly not sure. Perhaps the "Data Files" link from

http://www.cengage.com/cgi-wadsworth/course_products_wp.pl?fid=M20b&product_isbn_issn=9781285860190

EdwardSn0wdent - January 31, 2018, 12:12 pm

I have never got along with eBooks. Would much rather pay for a book. Price it against your future, if this is the path for you. When I first started ut eBooks were no around. Had to wait until O'Reilly Media sent the latest catalogue.

Wrox.com was another favourite brand of mine. Got in a bit of trouble around 2001 off the top of my head. Not quite the same now but still solid books.
