Mining Complect (Cryptonight) , Linux + Windows | Panel (D & E, Upd) | C ++

About Stability:

Spoiler [\(Click to View\)](#)

[img]<http://joxi.ru/v29oNEJfGw1Yvr.jpg>[/img]

[img]http://preview.ibb.co/iMJyKm/Screenshot_1.png[/img]

File panel / File

Size / Stub (815 kb) (UPX - 277 kb)

Language / C ++

Without dependencies with TLS / No depends, have TLS

Panel functions / Panel function

Spoiler [\(Click to View\)](#)

Linux- load and execute, execute the command / Download & Execute, Run command

Windows- load and execute .exe, auto update bot / Download & Execute .exe, auto-update

What's in the Windows release

Spoiler [\(Click to View\)](#)

Self-delete-delete

Accept commands from the admin panel / Receive command from panel

Copy / Drop

Startup / Startup

Good hide from normal user

Has game mode, stops mining / Game mode, stop mine if user play games

Update from panel / Update from panel

Panel / Support panel

Without dependencies and different loaders / With out loader / depends

Panel as proxy / Panel as proxy

Killing other miners by list /

Good other security process / Good process security

Hiding from the manager and the like / Hidden from taskmanager

Powered by Server2k3- 16, XP-10, x32-x64 / Works on Server2k3-16, XP-10, x32-x64 bits

Encrypt your data / Encrypt you data in miner

Change pool | coin | wallet in panel | Change pool | coin | wallet in panel

Easy crypt, have contacts / Easy crypt, have contact

Uses 50% CPU, excellent performance and weak touch / Use 50% CPU, perfect load and hashrate
Minimize any currency on Cryptonight / Mine all coins in Cryptonight
Do not give out your data (we have no arguments like some) /
Bonus Exploits / Bonus exploits x32 / x64 MS16-032

What's in the Linux release What's in the release Linux

Spoiler ([Click to View](#))

All in the miner - the miner works as a bot and miner at the same time, server problems can be problems, good for desktops, we use 50% of the CPU / All in miner - miner is bot and miner. Have a problem on server OS, good for desktop, use 50% CPU

Bot + Miner - give bot and it loads miner, good for server / Miner + Bot - give to you bot, he download miner from server and run, good for server.

700 kb, amd64. Ubuntu, Debian, Mint - tested. Later add support CentOS.

Question and answer / Questions and answer

Spoiler ([Click to View](#))

Miner on what assembly? - xmrig

Miner based in? - xmrig

Proxy based? - xmrig

Proxy based in? - xmrig You

help in the installation? - Yes

Help install? - yes

If the panel does not work then everything? - there will be no direct access to the pool.

If the panel is dead, i'm closed my work? - no miner connected to pool directly

Contact hoster and kriptora there? - Yes

Have a good cryptor and hoster? - yes Is it

possible to start from memory? - no

Run in memory? - no

What is the difference from other topics? - the function of the miner was rewritten, many things changed.

What is different from you other threads? -

What is the difference between other miners? - I do not load the miner and you do not need to cry 2 files, the native means it works everywhere and does not need add-ons as opposed to .NET.

What is different from other miners? - i'm do not download miner from server you do not need crypt 2 files, file native and work on all machines and with out depends

Scan run-time - <https://dyncheck.com/scan/> id / 20fa10e1d45246 ... cc52db6d0e22b99 Do you

use it yourself? - Yes

. Do you use this miner? - yes

Pricing:

ONLY Windows version: 250\$
Windows & Linux version: 405\$

XMR, BTC, BCH, ETH, DASH Accepted.

Got accepted for publish this sales thread here, original sales threads can be found from well known Russian board.

JohnG0tti - January 31, 2018, 7:08 am
any vouch copies for this?

Qlimax. - January 31, 2018, 7:13 am

(Jan 31, 2018 08:08 AM)Hack it or Crack it Wrote: [\[CITE\]](#) any vouch copies for this?Need to discuss more about that with coder directly, if that is fine for him those will go for high reputed Uber members.

Other board got 3 sales thread of it with multiple comments and previews of it.
I inform later about about vouch copys. ?

Stability screen with 22 bots mining.
Spoiler [\(Click to View\)](#)

Edit:

There will be only ONE vouch copy, that will go highly reputed and upgraded member who will have also knowledge about mining business and coding.

Vouch copy = Access to the test panel for 1-2day against quality preview about the product.

please do so, it would be pretty helpful for you in general.

Qlimax. - February 21, 2018, 4:39 pm

(Feb 21, 2018 05:33 PM)kropotkin Wrote: [\[CITE\]](#) I think this is not a legit vendor. Bro please deliver or give me back my \$150. You sent me same screenshot that's on here. And say it's the bot you setup for me. This is not a good way to do business. I will change this message once you honor your words and deliver.

<https://i.imgur.com/EfT95r0.jpg>We agreed step by step payment what i dont usually do.

You agreed that you will got Server+domains and panel url against first payment which was 150\$ When you pay another 150\$ you will get full access to the panel and for files and also server ownership will be moved to you.

You start fighting after first payment when server and all was configured and want product worth of 250\$ with only half of the payment upfront with servers and all?

Like i say you on the jabber, you can come and talk here and we can also finish this how you and i agreed it, i cant release panel or file access you before i have paid also to the author.
