Thread: [\[H\] Lenovo ThinkPad T460s \(i7 vPro, 8GB RAM, 500GB, Windows 10 Pro\) \[W\] BTC//PayPal](#)

Im Cold - January 31, 2018, 11:17 am

Hey guys I'm here to sell my Lenovo ThinkPad T460s.

I bought this laptop off Amazon for 1200 back in June of last year and used it mainly for recording music and playing skyrim and diablo when I traveled off and on cape. It's in perfect condition, no scratches or scuffs on screen or any defects. The only thing is the log in takes a minute. Still has all my stuff on it.

I have proof pictures as well. If you want we can talk via PM or Skype.

I'm asking for \$400 OBO please. It cost me 1200 a year ago.

I will accept bitcoin, LiteCoin, eth, or PayPal. I will accept you sending as a personal payment for paypal protection to! I can ship today or tomorrow and provide tracking number from my home. USPS, UPS, FedEx..

Holla!!

I can do \$350 shipped(USA) and I'll strip the HDD and bring it to my company which is NAID certified, secure facility and ensure your data is 100% DOD wiped or destroyed. So none of your information is compromised.

Just curious is this the FHD+ Model? (1920x1080) or lower?

He's unwilling to go first and I assume that "PayPal protection" is the only protection you'd have. I assume a middleman is out of the question too, then.

I'd like to confirm, you're not willing to use a middleman?

Riyu is here to be your middleman.

?

Asked to use minimalist as middleman and he stopped responding

Don't think he's gonna use a MM. I explained how it works and he stopped replying.

How can't you trust Minimalist? He's fucking staff, he's a MM, and he's the most trustable guy on HF so far.

This goes to show that this user is sketchy as fuck if he won't even deal with minimalist or use a MM and then goes radio silent after. ???
