Thread: [Feels-train Animes?](#)

Hello

I'm recently getting back into Anime, is completing 6 anime series (including Naruto) count as even starting anime in the first place? ?

I'm always down for some feelstrain animes. No Longer Human, Erased and Angel Beats hit me quite hard. I will eventually get myself back into Clannad and Monster, but I need to get into the mood for those.

Any good feels-train animes recently?

Finish Clannad. The second season makes you weep like a baby.

You think it was lame? That anime fucked me up real bad. It will always be one of my favorites.

I agree. The manga was way better IMO.

OT: This might be a bit of an unexpected recommendation because the first season is pretty lighthearted and uplifting, but you have to watch all episodes of Saekano. The second season is where things get gud.

What the fuck how? They literally went from getting married to not even being able to tell each other they love each other, sad really.

Tokyo Magnitude 8.0 is the only anime to punch me in the gut.
