Thread: [Official Group - Legends | GFX Contest - \\$100](#)

TheChi?f - February 1, 2018, 11:18 pm

Group Name - Legends

I am looking for:

Userbar

Forum Icon - 40 x 40 pixels (width & height)

Animated & Non-animated thread dividers.

Banner/Logo for the group.

I'm paying \$100 for this. Depending on your work, I may add more money when you get paid.
Payment will be in ETH/BTC/LTC/PayPal, depending on what you want to accept.

Legends had some older UBs but we're looking for a new and different one.

UBs that we liked on the internet:

[img]http://hackforumswiki.net/images/8/81/Polymath_%28Userbar%29.png[/img]

[img]http://hackforumswiki.net/images/6/61/Null_%28Userbar%29.png[/img]

UBs of the following groups were nice as well :

1 = low priority; More stars = high priority.

Royalty v1**

Enterprise*

DARK*** (without the swastika)

Nexus*

Polymath***

Nightfall***

Prism*

The Order v1***

Dawn*

Null****

Apex*

Arcane*

Riptide*

Nightmare*

Enigma v2*

Synergy*

Apex*

*Preferably with another color scheme:

Complexity v1

Black Diamond

Dynasty

Legacy?

Eternal

These UBs can be seen on this thread: <https://hackforums.net/showthread.php?tid=5514143>

Yeah. Let's do it. Post your best creations.

It was re-branded into another group, as Divined only owned the group, not the name. So now they are bringing back Legends, because RR purchased The Executives, and it'll go back to Legends. Confusing process but things happened.

I guess RR got a few \$ selling old Legends group and thats why he brought a cheap group. Thanks to Divined and low price on groups

Nosi - February 2, 2018, 4:33 am

I'd enter this, but honestly it is really hard to guess what kind of design you want. Please drop some more information on this and I am positive a lot more people will enter.

Hydraxus - February 2, 2018, 2:52 pm

I'd enter this, but chances are #Doge is going to end up winning like always...

Although, I have seen that the more recent groups have been using a different style of UB's. Well...
At least some of them.

Sorry, although I can assure you that people have seen your submission.

The color scheme (purple) is a bit new, although we're used to yellow/orange (gold, basically), as of the v1 & v2 versions of the userbars that we've had in the past, the second is indeed matching the criteria although the font could do something.

Also, we're open to UBs without the word "Legend" mentioned, after all, all logos need not have the name of the branding/group :)
