Thanks a lot my man! I truly am thankful for your help and support. I listened to the song and did as you requested. Here's my feedback.

The vocals are way too autotuned and it sounds like there's no reverb, The vocals are also a few decimals short of being understandable. Lastly, the bass... Idk if the track is audio clipping or what, but I hear distortion. I like the lyrics, I'm not a fan of the song as whole personally, but I could see my younger siblings listening to it. I'll pass it along to them

'edit" i can't tell where the distortion is coming from, was this recorded on a digital mic? o_0

Loved it, fucking spit a freestyle on it right away and killed it. Awesome beat.

Check this out, I think you'll like it and may give you some inspiration:
