Thread: [Free powerful 32+ CPU bare metal servers \[EARN \\$600/yr XMR per server \]](#)

THEICOGUY - February 3, 2018, 5:26 am

That's right folks,

I'm giving away a method of obtain powerful 32+ CPU bare metal servers.

You can use these servers for mining XMR, web hosting, game server hosting, you name it!
Doing this method more than once is possible with good opsec skills.

No support will be given for using the servers. If you don't know how to use Linux or how to start a web hosting company through a bare metal server, then you will have to Google for yourself.

Each time you attempt the method, you will have to make a very low investment, under \$10.
