Challenge:

>Decode URL

>Successfully bypass our security

>Add your name into Hall Of Fame

>PM me with steps on how you completed it

After finishing and putting your name in HALL OF FAME please reply here confirming with this format

Code I [username], confirm my entry!

Good luck, everyone!

Compulsive - February 3, 2018, 4:09 pm

I have no clue I would go about getting through the site, but I am going to try anyways! Thanks for the competition!

??????? - February 3, 2018, 10:58 pm

I've almost got it. This is a good idea for group recruitment!

mObile - February 3, 2018, 11:41 pm

What the hell, I'll give it a shot.

Edit: done. ?

Seems like we still have kids who will DDoS a pentesting website LOL

Wires - February 4, 2018, 4:52 am

Thought I'd try this out as my first, gave up xD. More or less got to the last step.

Galaxias - February 4, 2018, 7:09 am

Is it me or is the site not working at the moment

sAVITAR - February 4, 2018, 7:25 am

Yeah, the website doesn't seem to be working for me either. No idea if I'm doing something wrong or if the site is down/moved.

Should be up now.

HINT for some people: please combine the decoded words together to form the URL the first one should be moved into second :)

P.S: To whoever is DDoSing for no reason, grow up.

Sadly, it have always been like that. As fast as a challange is posted some of them feel the desire to mesure their dicks or something. I mean why should you hide a simple challange behind 'cloud flare', thats just crazy

I think it was pretty easy, but it was so cool, because it shows who are creative and who arent. I know some of my friends that would never pointed out some things. I think you should make the next one as trickier as this, but harder. Like using user agent for injections, and things like that
But it was cool ^^

Another thing= Do i need to be upgraded to join? i didnt buy 133t yet

EDIT: I dont wanna give hints

Speci4IK - February 7, 2018, 2:33 pm

I originally thought a proxy was required as part of the challenge due to geoblocking rules. So I had to run everything through socks and web proxies. That could be a neat part of the challenge if it was on purpose. I also have some ideas how to tweek it a bit for a greater challenge but keep it in the

realm of what you did. Overall it will keep the noobs out.
