They were on two desperate occasions as two different tests to ensure the method was working.
/side note I purposefully only put .95 on the second account, although the rewards can go infinitely high off per gallon.

you should also make more to let people know u can actually get \$3-5 off.
No and not only is not the same method (because it's patched obviously) but you aren't allowed to post specifics like this. So you need to remove that part please and thank you.

And thanks for the suggestion? But no I do not need to. People know my work I had dozens upon dozens of happy customers last time and I have already proven it works, thanks though?

Fear of God - February 4, 2018, 12:29 pm

How come you just don't sell codes to certain people. I would rather buy codes then the method, hence I don't have the time to do that but I do have the money to buy codes.

Off topic.

Because I don't want to make codes? If i wanted to make codes and sell them here then I would have already done that? This is me leaving the door open for someone to buy this method and make bankkkk off selling the codes here.

Thanks for another great suggestion ? (Please keep discussion more on topic).

Cam - February 4, 2018, 12:47 pm

Can you specify on the 4/8/15 code things? Is that per day?

It will be easier to explain once you buy the method.

It's not per day, it's period. I'm going to up the #s though. Going to be 10/20/30

You can do more than that very easily, it just requires you to make a small purchase (you can get it off HF easily) for a couple dollars.

yes it was, do you think I didn't ponder if i wanted to sell codes before opening this thread?

Although I dont appreciate advertising on my sales threads, its okay because well, there are dozens of people like this guy would eat up every code you guys produce! Get it whiles its hot!

...so if I'm reading this right that 10 codes is paying you \$40 and only lets us make 10 codes...? Or batches of 10. A I so how long is the process.

I think you meant to say, for \$40 you can create 10 codes worth around \$3 off per gallon and 7-8 codes \$3.50 per

Basically, you can create infinite amount of codes using the method, but it will require a slight investment after you make the amount of codes I have listed within your package(it's 50x Times less complex than it sounds, but this is the only way to explain it without giving hints). It will be much simpler and easy to understand once you buy. It takes about 30 minutes to get one code worth \$3

off per gallon.

I am confused how much gas I can get from this method, for personal use not to sell. I have F430 and also a different daily that drains fuel and in California the liberal scum created another gas tax.

Bahahaha, i love it.

So you can get completely free fillups. It takes about 30 minutes (could take 40 mins because of much gas is there) to make one code capable of a free fillup and then you wait 48-72 hours for the rewards to show up.

Guys, at 4PM all previous buyers will get a fresh set of your 'package' if you don't please PM me!

We're back live! PM ME TO BUY WITH VENMO/CASHAPP THE SELLY HAS BEEN RESTORED!

I just bought this method, looks legit and it should work. there is a lot more work involved this time around sadly.. but it is still really good if you use it for personal use, you will still save a lot money. I will re-edit once my balance is reflected on my account with a receipt and pictures to confirm legitimacy.

Ben Shapiro - February 7, 2018, 9:51 am

In light of recent and unfortunate behind the scene drama (yes the method still works), I am worried about my account status going forward until further arbitration.

I will be here till the bitter end, selling the same working method that requires no investment. I will be providing support no matter what as well,

Therefore I urge all previous and future customers to PM me so I can give you an alternate way to contact me in case of a dire situation. I will not providing support on any other platform, unless something happens where I would not be able to contact you here however.

I am still selling for \$25, and anyone interested shouldn't worry and should send me a message to get this deal!

Galaxias - February 8, 2018, 3:17 pm

Galaxias' eBook Review for "FREE Shell Gas Method [Cheap & Trusted]", copy provided by [Ben Shapiro](#)

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Alright, this review is going to be fairly simple and short, just as the method. I would like to mention that those who have received or already knew about the Shell Gas method, to understand and know that if you wish to still receive gas, this version with additional steps that you must take, will be something you'll be interested in. So, let's begin.

I received a PM from Ben Shapiro, about nearly four days ago, and was told that he had found a new way to get credited points for Shell rewards to get discounted gas. He then asked me whether or not I'd like to review the adjusted method to review for him and I agreed. I was then presented with well, just the picture of the old method and then another picture of the adjusted method that contained the additional information and steps that I needed to know to re-perform the method once again but this time without triggering any red flags to Shell's system. Given that I had my doubts about the authenticity of the method, I thought this wasn't going to work and that it was just a waste of time but I tried it anyways. I was then provided by Ben the key factor of what is needed to do the whole process, which took a bit of time to do. Originally, it took him about 1 day and a half to reply back with it, but nonetheless, he provided me with everything I needed and I tested it.

I was kind of disappointed in how long it took to get responses from him, but still, he has a busy life and so do I. That's understandable and nonetheless, it didn't matter as much because of the fact that this method does indeed work, and I have tried it with 2 accounts. For those who are hesitant in purchasing this method, don't be, as not only do you get provided with the guide, but the materials you need to get it started to create the amount that you need. He also offers full support and answers questions (in sometimes a timely manner) that you may have.

Proof (I did this for my friend):

FINAL THOUGHTS

I would like to mention, that this guide is shared between Game Freak (he originally found this) and Ben. They both made an agreement to do 50/50 split (IIRC) for selling, so if anything, both of them should be able to answer your questions. The overall guide is indeed simplistic and the offers he makes (packages containing extra tools to create accounts with rewards) is a very good offer for the price he is selling at. The time it takes him to answer questions... varies. Sometimes he's quick, sometimes he is extremely slow and that kind of disappointed me. With the drama between him and Game Freak cleared, I'd say this method is worth buying from Ben.

However, do keep in mind that it is possible that at any moment, Shell can patch and/or restrict recently created codes, as they did last month. Furthermore, I want to suggest to Ben that you include places where buyers can find players to purchase the necessary materials to make this method work. It'd be nice, but overall great product.

That is all.

Again, thanks for allowing Appraisers to review your product and I hope you are very satisfied with my review.
