Thread: [SCAMMED BY Durwin \(Old Username:Polyelrm\) uid=3528140 90 usd BTC for cashapp/paypal](#)

FatStacks - February 4, 2018, 6:41 pm

I literally had a great day of meeting new members and CEing. I love helping members out and am just trying to earn enough to upgrade to leet. The user would not go first and promised he was "trust worthy". This is such BS what a great way to ruin someones day. The user after me sending the btc told me to add him on skype. Then proceeded to warn me not to deal anymore and that this was a lesson. What a prick. Actually really depressed now. This is so shit, but its a bump in the road. I ask for some support from fellow HF members to prevent scams like these. IF btc fees werent so high I would of used MM. NEVER DEAL WITH THIS USER UNDER ANY CIRCUMSTANCES. Please post here to support I am actually so down rn. If you need CE done pls still HMU I want to earn some money for leet.

UPDATE: USER CHANGED HIS NAME NEW:Durwin OLD:Polyelrm

Link to profile: <https://hackforums.net/member.php?action=profile&uid=3528140>

again PLS avoid dealing with this user. If you need a CE I can help you personally or find you someone else. If you find yourself dealing with this user dont go first

Everybody in the CE section is trustworthy until they find a non-upgraded member spamming all threads.

What is that supposed to mean?? Are you saying I spammed?? Please elaborate.

Lol what kind of nonsense is this. Smart though, as he didn't admit it on HF he technically can't be banned.

I mean he sent me his skype I added that skype then he stated he scammed me. That is pretty consequential

Zexi - February 4, 2018, 6:54 pm

Sad to see you get scammed bruh, i told you not to go first to anyone without recent exchange rep.

Fucking sucks to see people scamming for so low. Hope you get it resolved man.

Really a shame. Thought I was ahead then get set back

Skyline_ - February 4, 2018, 8:16 pm

I did not scam you that was the wrong Skype you added or did you photoshop that conversation? Nonetheless I will try resolve this scam report soon.

Okay so where is the users 'product' to show for it? You can clearly see in his BTC transactions that the address in your signature was compensated, therefore you have received payment. Strange for a 'scammer' to give YOU free money.

He is just trying to lowkey scam more people, while he is "resolving" this dispute. So sad.

Regardless of the Skype, you said you sent the money over PM so what's your excuse? I'm calling bullshit.

He just added me on skype to tell me he scammed me. All transactions were done on site and there is proof of such

I'm not understanding this statement or which side your on. The BTC transaction me sending him btc

Also can someone leave a neural rep on his profile link to this dispute so he cant scam anyone else?

Thanks for pointing that out. The user Polyelrm is literally scum. Luckily he will only walk away with what I gave him and not another users hard earned money. Thats the only light I can see in this situation.

Also is there anything else I can do? Is there a way to get this to the DD database?? OR is there another step I need to take in this matter.

Well now. Now when the trust scan returns, you'll be preventing future cases
