Thread: [Converting old bustabit script to bustabit v2?](#)

Uzmer - February 5, 2018, 4:32 pm

Good day,

I wanted to know if there are any softwares or program that converts your old bustabit script code into the latest one, bustabit v2?

What if you stop being lq?

Kaybe - April 11, 2018, 7:24 pm

Yea I have a friend that would be able to do it. It would cost since literally it's a custom made script for you. Just shoot me a PM if you're interested.

Also if you want any new scripts just shoot me a PM aswell. If you don't like the new BaB you can go play on a site called ethcrash.io.

I think this job would have to be done by hand. Maybe post a WTB in Buyer's Bay section. :)
