Thread: [Modern UI Instagram Username Checker \[Windows/MacOS/Linux\]](#)

RumbleFrog - February 6, 2018, 2:45 pm

Hello, I was bored one day and decided to create an Instagram username checker incorporating modern responsive design and fast operation. I'm now releasing it to L33t/Ub3r members with positive reputation on HF!

Latest Version: 1.2.3

Please post below along with your platform for it! Feel free to repost for updates as well!
Code Your Platform (Windows/MacOS/Linux):

Note: On the rare chance it gets stuck on parsing stage, simply reload the app.

May not be up to date with newer versions, but feel free to scan them on VirusTotal yourself.

Windows VirusTotal (One false positive):

<https://www.virustotal.com/#/file/59ff899258cdc4c6255ace3891963035571badb7e9a3940d4003e222fe255954/detection>

MacOS VirusTotal:

<https://www.virustotal.com/#/file/d01dd1259438bc613691900dc64529b61b784d886e495f06524c24ecff230eae/detection>

Linux VirusTotal:

<https://www.virustotal.com/#/file/4ee2b4319f8642ac285795dc93be57641ab4e655d059387b99533a7fffb1829a/detection>

Goku - February 6, 2018, 3:37 pm

I could test this for you, but it does seem straight forward

RumbleFrog - February 6, 2018, 3:39 pm

(Feb 6, 2018 04:37 PM)EXO™ Wrote: [\[CITE\]](#) I could test this for you, but it does seem straight forward

Dm me with your platform/OS!

MaDTiA - February 7, 2018, 10:15 am

i received a vouch copy and this is my honest review :

first of all VT scan :

<https://www.virustotal.com/#/file/76b261940e4d05e7d178599b992ef9801daabf183b84087eb65a44750e0336a0/detection>

2/64 the file seems pretty legit but i have inspected the connections thru Process Explorer

<https://gyazo.com/d7a8683e299a07c137b37b65970f7532>

all seems legit so far :)

the guis is very easy even if (i dont know if is a vm problem or not) the loading of the software at first run seems to be a tiny bit slow .

the software is user friendly and fast as lightining ! i checked a random list of invented username and the check lasted like 2 sec in a virtual machine (very slow one)

this is the gif on how work the software : <https://gyazo.com/a028e860856b5592103cb81b189aaad9>

i can truly recommend this software even if is a bit heavy as exe but it does what you need : username checker at his finest :)

Thanks for the review!

It's now free to all positive l33t and ub3r members!

Goku - February 7, 2018, 10:58 am

Also received a vouch copy

Didn't bother to scan because user above me already has done that.

The program does seem to run slow so OP might need to debug that but the UI is sick and clean and it works perfectly so I'll use this more often.

Thank you! And keep up the good work :)

Malicious` - February 7, 2018, 10:59 am

Sending you a message about this.

RumbleFrog - February 7, 2018, 11:01 am

So regarding the slowness, it's because of the interval I set each check to fire at, although the endpoint I use has a high rate limit, it's still possible to get rate limited, to avoid a large percentage of the checks going into the "Unknown" category in the checker due to being rate limited, it's set to 150ms between each.

Goku - February 7, 2018, 11:32 am

(Feb 7, 2018 12:01 PM)RumbleFrog Wrote: [\[CITE\]](#) So regarding the slowness, it's because of the interval I set each check to fire at, although the endpoint I use has a high rate limit, it's still possible to get rate limited, to avoid a large percentage of the checks going into the "Unknown" category in the checker due to being rate limited, it's set to 150ms between each.

ahh okey, it does seem to work flawlessly so I don't know if it is a problem

In the next version, I'll bump the speed and I'll make it recycle the unknowns.

Malicious` - February 8, 2018, 2:36 am

Could be useful if someone with more knowledge about this could post on here.

I scanned the files on Hybrid-Analysis, and here are the results.

.exe: 85/100 & tagged as HW32.Packed

<https://www.hybrid-analysis.com/sample/0dd0878185ad74a7485ade23ca940a44e5c19815974fbaa6c6af9fd393b3ad98?environmentId=120>

HW32.Packed.86D1 modifies system files, add's new folders, creates Windows tasks and shows advertisements on your computer and browser.

.ApplImage (Linux): 100/100 & tagged as a backdoor

<https://www.hybrid-analysis.com/sample/6acb35e6be619407fce2c5edfd82d06f0335672a31c37f6cf662048c887e65ac?environmentId=300>

These numbers don't mean the file is malicious, it is just an indicator.

TopKekeroni - February 8, 2018, 6:02 am

Thank you so much, just got the program.

Goku - February 8, 2018, 2:16 pm

Are the updates OTA?

RumbleFrog - February 8, 2018, 2:30 pm

(Feb 8, 2018 03:16 PM)EXO™ Wrote: [\[CITE\]](#) Are the updates OTA?

What's OTA?

Goku - February 8, 2018, 4:11 pm

(Feb 8, 2018 03:30 PM)RumbleFrog Wrote: [\[CITE\]](#) What's OTA?

Over The Air. So the app would update itself without the user needing to download anything

RumbleFrog - February 8, 2018, 5:10 pm

(Feb 8, 2018 05:11 PM)EXO™ Wrote: [\[CITE\]](#) Over The Air. So the app would update itself without the user needing to download anything

Currently, I don't have any plan to have it auto update, it's not like a typical large-scale application.

Anubis - February 9, 2018, 12:14 am

Can you send me this please.

RumbleFrog - February 9, 2018, 3:35 am

Sent to everyone that has DMed me with required info

RumbleFrog - February 12, 2018, 8:57 am

Release 1.2.3 patches a CSRF token problem

RumbleFrog - February 13, 2018, 4:43 pm

This Instagram checker is available for grab! Better than most IG checkers in the market.

defygames - December 31, 2019, 7:03 pm

I'm using Windows 10 x64. May i please get this checker? Thanks.

Pantomath - January 15, 2020, 1:51 pm

Can I have this please. I am on windows

\$hmokey - January 15, 2020, 2:08 pm

i am interested in this bud - WINDOWS

JINXs - January 16, 2020, 2:25 am

interested in this - have windows. thx alot

jzrr - January 14, 2021, 3:15 pm

i am interested in this please - WINDOWS

Creed2 - January 15, 2021, 8:30 am

hey can you pm me for second? i cant

MaDTiA - February 3, 2021, 6:43 pm

may i try it ? windows and linux , thanks :)
