Death - Leprosy: The CD case and album art needed to be replaced

Death - Individual Thought Patterns: I now own every Death studio album, was missing this one \^^/

Atheist - Unquestionable Presence: This is a new band I've been listening to, really cool jazzy technical death metal. Listen to this whole song, it's insane:

[Video: https://www.youtube.com/watch?v=NolrcYGVJ_A]

Yup, big fan of black metal here :D

I've heard Atheist before, never listened to them, but I was interested when I heard they had jazz bits in their songs. The song was pretty cool, though I don't listen to much death metal myself.

The new Master Boot Record album just released yesterday. I'm pretty new to the music, but it's pretty cool.

That Stratovarius is the kind of thing :P Never been bothered to give the band much of a listen though. Dragonforce was good, though I haven't bothered with that band for years now. Symphony X I'll have to give a listen to later because it's a long song. Malmsteen is good.

I've also realised I need to check out the rest of Galneryus, only heard four of their albums.

Sadly the video of their Oslo concert has been removed from YouTube but it was amazing and broadcast live on national television in Norway.
