I will pay in bitcoin. Not a huge job. My school district is hardly monitored at all, the system can hardly be called secure. I just want a boosted calc and physics mark.

Annabelle Lee - February 9, 2018, 10:58 am

It's not worth it. It's never worth it. Your teachers will know once they log in and see it again. Just own up to it and try harder.

Agree with annabelle, its really not worth it

Nexius - February 9, 2018, 11:57 am

Schools are considered government computers, so they will treat it seriously. It's not worth a federal charge and them making an example out of you. and belive me, they will.

SIM-3051398 - February 9, 2018, 12:37 pm

This guy needs to go read the lounge threads on what happened to the people who thought it would be cool to "hack" there school computers lol.
