Vouch copies given out, waiting on reviews.

Frost - February 14, 2018, 1:11 am

We exchanged our methods and I got the Starter package, here is my review:

Structure:

The ebook is very easy to follow, has 8 pages (don't know about other packages) with many images and the grammar is good.

Method:

The method is very original (even tho I saw something similar time ago) and it's not the classic bullsh*t like another eBay/Dropshipping/eWhoring/Reselling tutorial.

Method does not require any investment (1-2\$ investment will help you btw) nor any special requirements/tools, just a brain and a bit of creativity.

You have to set it up and wait 1-2 days (recommended) or even less for getting your first earnings, I already started earning little cash after 4 hours from the end of the setup (will provide proof of earnings after I get more earnings and scale the method).

Method is semi autopilot and can be scalable as hell if you want, it just requires some maintenance.

Overall:

I recommend the method? Absolutely yes

Can you earn what sponsored by OP (250\$/month)? Yes imo it can be achieved, I will finish testing and will report here.

I don't know about extra tips from other packages, I used my own tips/tricks and got great results, but I highly recommend to buy the Premium/Phantom package if you wish extra help from OP!

I also recommend the OP to sell only limited copies of this (maybe 10-20) then pause sales for a while.

Bought this because I had extra money, but this turned out to be an amazing product!

For one thing, he describes how you can set everything up step-by-step.

Even better than that, his support is awesome. You don't have to look to him for help, he contacts you to make sure that you are successfully doing the method!

Would recommend buying this for a cheap price, as this may be off-sale soon.

Will update with earnings once I set it up.

Loses - March 9, 2018, 5:22 am

Increasing the price by 30 for each method doesn't change the idea of it being 'over saturated'

Something being over saturated is when people make a 'ebook' and try to sell the idea.

Prices go higher as more people get it, and eventually, sales will stop.

Nope, does not involve Paypal or eBay methods.

Some customers earned in the first four hours. If done correctly, depending on package, should earn in the first month.
