If you still don't know, I am hosting a free graphic service for almost 1 month. So here's my design for my service.

What is type? For my errors, I am willing to be corrected as I'm not good at English. :(

It looks clean, but its to big for the eye. Its to much, try to make the font size and boxes smaller. :)

Exactly what I was thinking.
I like the overall design.
If you make it smaller in terms of the fonts and sections, it'd look more appealing.
