Thread: [Lost my device how to reset 2FA for HF? Please Help](#)

Severus_Snape - February 11, 2018, 4:39 am

Hello,

i lost my device which had 2FA and now i am unable to signin from my another mobile on HF until i give 2FA.

please i can't find 2FA page can anyone help me please.

Here's the page: <https://hackforums.net/gauth.php>

FamousHater - February 11, 2018, 7:04 am

you click on extras at the top
then count 8 words down and you will see gauth
click that and click clear code

enjoy

Elitas - February 11, 2018, 9:02 am

If this still hasn't been resolved, follow the below steps:

1. Open the [Gauth](#) page.
2. Click the [CLEAR/RESET CODE?] link.

Now your Gauth has been reset.

Thanks everyone for there help :)

Finally saved it from death.

Backup your secret key as the page instructs and this won't happen again.
