[2/10/2018 12:04:03 PM] Tyler: No, I can go back you didn't mention you "finished" it until way after

[2/10/2018 12:04:14 PM] Tyler: and you showed me some generic code that didn't have anything to do with that program

[2/10/2018 12:04:28 PM] TWS: tell me do you read csharp?

[2/10/2018 12:04:29 PM] Tyler: I showed it to my buddy who codes and he said that could be from anywhere

[2/10/2018 12:04:41 PM] TWS: well your buddy cannot code very well then

[2/10/2018 12:04:55 PM] TWS: because he don't read other peoples code very well

[2/10/2018 12:05:24 PM] Tyler: He's a full stack developer for a startup making over \$100 a hour but okay tell me more..

[2/10/2018 12:05:39 PM] Tyler: Anyways, I'm waiting on that gif.

[2/10/2018 12:06:06 PM] Tyler: And yet you just said you where working on my software yesterday at the hotel with free wifi so that doesn't make sense lol

[2/10/2018 12:06:35 PM] Tyler: Yeah so why would you keep working on the software?

[2/10/2018 12:06:39 PM] Tyler: After I told you to stop?

[2/10/2018 12:06:41 PM] Tyler: My point?

[2/10/2018 12:07:22 PM] TWS: omfg MY POINT IS SHUT THE FUCK UP AND READ WHAT I AM SAYING....I FINISHED THE SOFTWARE BEFORE YOU TOLD ME TO STOP IS WHAT I'M SAYING YOUR GETTING WORKED UP OVER NOTHING. I MORE THEN LIKELY MISS WORDED IT A SECOND AGO

[2/10/2018 12:07:37 PM] TWS: FINISHED IT BEFORE WE EVEN STARTED TALKING YESTERDAY

[2/10/2018 12:07:51 PM] TWS: SO WOULD YOU PLEASE JUST RELAX AND CALM DOWN AND LET ME GATHER THE PROOF YOU NEED

[2/10/2018 12:09:08 PM] TWS: and your buddy may be a full stack developer making over 100 bucks an hour but i my self do have a offline job my self. and full stack developers the ones who are worth there salt do not make that much per hour they make far more lol. so i think your buddy is blowing smoke up your ass...

[2/10/2018 12:09:20 PM] TWS: also if you don't want it period even after

[2/10/2018 12:09:49 PM] Tyler: Okay waiting on that screenshot, thanks.
[2/10/2018 12:09:50 PM] TWS: i just don't got it online to give to u right now
[2/10/2018 12:09:59 PM] TWS: so you see your over reacting over nothing
[2/10/2018 12:10:18 PM] Tyler: Waiting on that proof now, for over 24 hours. Thanks
[2/10/2018 12:10:45 PM] TWS: Once minimal progress on projects is sent to the customer no refunds shall be issued a client has 31 days to request a refund after said time has past only partial refunds will be processed. depending on the amount of work completed.

[2/10/2018 9:32:12 PM] TWS: thanks

[7:24:18 AM] Tyler: How much is a partial refund?

[7:47:40 AM] Tyler: And no unless you show me you worked on it it's a full refund. Again you didn't send any proof? 2 days in a row? Either send proof or give me a full refund

[10:10:46 AM] TWS: listen fella i sent proof your fake coder friend tried to disprove just because you saw something in the code you don't like does not mean i did not work on it. it's a partial refund still i will send more proof i have some bitcoin i can send you as a gesture of good faith right now i'm at work if you want the bitcoin send me your address. if you want to remain acting like an impossible child so be it. and number 1 i've not been avoiding you number 2 neg repping me in an effort to make your self look like the victim is a childish act and number 3 you don't listen to save your own life.

[10:11:20 AM] Tyler: You said you'd send me a gif you just keep pushing it back? How much worth of bitcoin are you going to send me?

[10:12:01 AM] Tyler: Listen, I'm going to keep this real simple you said you'd send me a gif yesterday. Where is it? Plain and simple you don't follow through with your words which makes you unreliable.

[10:12:03 AM] TWS: i'm waiting to get more

[10:12:20 AM] TWS: i've been busy with my real job man just relax

[10:12:25 AM] TWS: toss me your bitcoin address

[10:12:33 AM] Tyler: How much are you going to send me?

[10:12:45 AM] TWS: remember if i send u bitcoin it's worth more when you exchange it

[10:13:04 AM] TWS: theres no reason not to be peaceful man i don't plan on scamming you

[10:13:10 AM] TWS: i just don't got paypal funds

[10:13:12 AM] TWS: to refund you

[10:13:20 AM] Tyler: I am peaceful you've told me to shut the fuck up and a bunch of other stuff lol

[10:13:25 AM] TWS: ohhh

[10:13:36 AM] Tyler: HOW MUCH BITCOIN ARE YOU GOING TO SEND ME?

[10:13:40 AM] TWS: i was just waking up when i said that bro

[10:13:43 AM] Tyler: Answer the question I don't have time to talk

[10:13:46 AM] TWS: right now 15 and more when i have it

[10:13:50 AM] TWS: chill

[10:14:02 AM] TWS: like a said gesture of good faith

[10:14:12 AM] Tyler: Lol let me know when you have more for now I'm opening a scam report and just going to post the chat transcript and let the people decide.

[10:14:21 AM] TWS: dude you do that

[10:14:22 AM] Tyler: Funny you can buy ub3r but not refund me

[10:14:29 AM] TWS: ill be opening a community alert

[10:14:32 AM] TWS: there is no reason

[10:14:36 AM] TWS: for this to go to a scam report

[10:14:47 AM] Tyler: Why do you have time to by ub3r but not send me a gif?

[10:15:21 AM] TWS: because simple fact is you hired someone on hf and then started crying when you decided to go another route no one tells a developer there outsourcing to india thats a developers worst nightmare is indian outsourcing

[10:15:27 AM] TWS: i will send u a gif

[10:15:41 AM] Tyler: Send me \$35 which I think is a OVERLY fair amount and we'll call the over and I'll remove the rep and not escalate and I'm sure if we both opened community alerts people would side with me given the "proof" you gave of some generic code

[10:15:43 AM] TWS: but if you open a scam report even after i send u a gesture of good faith payment

[10:15:48 AM] TWS: it will only make you look bad

[10:16:07 AM] TWS: says your fake coder buddy it's not generic code it was a sample of code to show u i've been working on it

[10:16:12 AM] TWS: and your acting childish

[10:16:13 AM] TWS: look

[10:16:19 AM] TWS: just send me your bitcoin addy

[10:16:24 AM] TWS: and ill send u some bitcoin

[10:16:28 AM] TWS: may be 15 may be more

[10:16:30 AM] TWS: idk yet

[10:16:36 AM] TWS: just stop acting childish

[10:16:39 AM] Tyler: Lmk when you have \$35 worth.

[10:16:41 AM] TWS: and ill do good by you

[10:16:51 AM] TWS: how about i make it 25

[10:16:53 AM] TWS: dude

[10:16:57 AM] Tyler: If I don't have it by tonight I'm posting chat transcripts and your "proof"

[10:17:05 AM] Tyler: We'll let the community decide.

[10:17:07 AM] TWS: i was just trying to save some to put it into the paypal

[10:17:08 AM] Tyler: How about that?

[10:17:15 AM] TWS: DUDE

[10:17:15 AM] Tyler: How about we let the community decide?

[10:17:23 AM] TWS: your the one not being civil or peaceful this morning

[10:17:27 AM] TWS: i'm trying to pay you

[10:17:32 AM] TWS: and your acting like a mental midget

[10:17:37 AM] Tyler: Trying to give me half the money I sent you

[10:17:38 AM] TWS: give me your bitcoin address

[10:17:45 AM] TWS: dude i did some work

[10:17:47 AM] TWS: on it

[10:17:51 AM] TWS: i deserv to keep half

[10:17:55 AM] TWS: don't be a prick

[10:18:01 AM] TWS: give me your bitcoin address

[10:18:01 AM] Tyler: Send me the gif then if you did "work"
[10:18:26 AM] Tyler: Are you going to send me \$35 worth?
[10:18:39 AM] TWS: i've got 25 worth
[10:18:49 AM] TWS: if you don't want that considering it's worth more paypal
[10:18:51 AM] TWS: when you exchange it
[10:18:53 AM] TWS: then so be it
[10:18:57 AM] TWS: your getting more
[10:18:59 AM] TWS: then what you paid me
[10:19:03 AM] TWS: if i pay you in bitcoin
[10:19:08 AM] TWS: i don't see what the big deal is
[10:19:10 AM] Tyler: Lol it doesn't 2x
[10:19:21 AM] Tyler: don't try to play me I used to deal with thousands in bitcoins weekly
[10:19:40 AM] TWS: dude
[10:19:44 AM] TWS: i'm not playing you
[10:19:50 AM] TWS: do you even relize what your saying
[10:19:56 AM] TWS: the ratio is 1.5 for bitcoin right now
[10:19:59 AM] TWS: your getting more
[10:20:11 AM] Tyler: Look man, \$35 or I'll just let the community decide about you. I'm not negotiating down anymore
[10:20:18 AM] Tyler: I don't even want bitcoin
[10:20:24 AM] Tyler: It's creating more work for me

now he is trying to strong arm me into paying him back in full he is being childish and immature.

<https://blockchain.info/tx/c24bb06f78d5940df65a3a27853ddb0b9b292eba9daed797cd205d04bceb5ac9>

a gesture of good faith payment to him after he finally decided to give me his bitcoin address.

ill be sending some more to him after i get some in paypal even.

i tried to remain peaceful but he turned childish also he tried to pay me at one point in something called a magicalbutter for making hemp products after he saw a thread of mine on cbd.

he expects 35 out of 50 for a project i did infact finish. Nope he will get another 15 out of me but in general I will not pay back almost a full payment i sent him 15 in bitcoin witch he can exchange with the current 1.5 ratio and actually get more but thats it.

he is a time waster for the most part and childish he likes to twist peoples words up. i won't be dealing with this person anymore.

i offered partial refunds based on the terms of service in my thread it was there when he hired me and will remain there,

<https://hackforums.net/showthread.php?tid=5791382> my thread of witch he hired me out of.

Tylers The Name - February 11, 2018, 8:32 am

This user has wasted my time for 3 days now coming up with all kinds of lies like he was in a motel and couldn't respond, my project was on a different computer and he can't find proof.

He didn't even start on the project and has been saying he's going to send me a gif of what he's done for two days now...

I'd recommend anyone thinking of using this user for any project to be cautious in paying him upfront, he's a nice guy but I think he's trying to juggle to many projects at once.

This is the "proof" he sent me

That could be from any software and yet he refuses to send me a gif of any interface, or anymore code.

Yet he claims he finished it...

Additionally, my alarms went off when he tried getting me to send him an extra \$50 "to move me to the front of the line"

Anyways, beware of this user and I'd STRONG recommend everyone to be cautious before sending him any type of upfront payments.

So T.W.S why don't you post screenshots here showing everyone the work that you finished? Don't see what's so complicated about showing people proof?

He didn't even start on the project and has been saying he's going to send me a gif of what he's done for two days now...

I'd recommend anyone thinking of using this user for any project to be cautious in paying him upfront, he's a nice guy but I think he's trying to juggle to many projects at once.

This is the "proof" he sent me

That could be from any software and yet he refuses to send me a gif of any interface, or anymore code.

Yet he claims he finished it...

Additionally, my alarms went off when he tried getting me to send him an extra \$50 "to move me to the front of the line"

Anyways, beware of this user and I'd STRONG recommend everyone to be cautious before sending him any type of upfront payments.

So T.W.S why don't you post screenshots here showing everyone the work that you finished? Don't see what's so complicated about showing people proof?

you asked me if there was a way to move you to the front of the line it's all in the transcript your making your self look even more retarded. your the only one who wasted anyones time here man.

and truth be told that code is all i was willing to provide you with untill the full payment of 300 dollars witch you agreed apon was made also i sent you a development contract that you never sent back. so theres your first mistake you need to grow up seriously.

Ok people i have other projects besides this guys he asked me if there was a way to move him to the front of the line he also told me he could send me a magicalbutter machine to make canabutter with because he saw a post of mine on cbd vape infusions. omg this is why i told him 50 extra dollars.

this guy is a unprofessional un civilized prick. don't deal with him what so ever i've deleted him on skype this is the only place i will have any communication with him.

Okay, look who's acting unprofessionally? You said that you'd send me a gif? Where is it? That's all I have to say.

reason i've not sent you anything because i got to constantly keep replying to your anxious ass, you flew off the handle for no reason and started screaming scam for no good reason. i'm sending you your partial after that i'm placing you on block on here. the community now knows what type of person you are.

ill post the entire conversation soon but in the main time. ill let all of you decide is it me or is it him who is at fault here the guy would not stop talking long enough in pm on skype to let me get a word in or even let it remain a peaceful and civilized conversation hes arrogant and ignorant none the less and it seems i'm the one getting taken advantage of. unless he decided he wanted the full of it my policy is don't show proof or don't show code unless more then what he paid me is in pocket hes getting his partial and thats that.

Sketchy to say the least. A gif takes minutes to send. The snippet you sent is fairly generic. Would be much better if you sent him a gif of the interface with a snippet of code from a specific feature within the project. He can't exactly rip the project from that. He can't even read the code. Sounds like you're bluffing, I'm calling bullshit.

I have to agree with Wires here, it doesn't make sense when it would take a mere minute to send a gif.

P.S If you look closely you'll see the term "stock" and "ERR"

ERR = Economic rate of return

My software he was supposed to be working on had nothing to do with the economy or stock market. It was software to extract business data from Yelp. What's that have to do with the economic rate of return?

not bluffing he just keeps on and on in pm making it impossible for me to send him anything.

and calling it generic tells me your more then likely his full stack coder buddy or a random passer by.

@OP All I see are a bunch of excuses and sketchy behaviour on your side. On Tyler's side I see a calm user who is being told to STFU repeatedly for no reason whatsoever.

OP you need to get your shit together and provide him a full refund, ESPECIALLY after wasting his time and lying (you know it's true) to him for 3 days straight. If you honestly think anyone on here is going to believe the 'deadly gasses' bullshit you were trying to pull that is very naive of you.

@Tyler Good on you for making that CA/DD. This behaviour is unacceptable and you are in the right for doing what you did. I'm sure plenty of HF members will agree here.

How does it make it impossible? Sending it would eliminate the constant messages. He paid for a service and asked for proof, now you're dodging him from what I can see, offering a partial refund because you couldn't do what you said you could, even tho you claimed to have finished it.

Hmmmm.... ?

And there's the bullshit I was waiting on. Your excuses are much worse than BlackShadow's. So you're really telling me that you've been preoccupied with replying to his pms so you couldn't send a gif? It took you longer to make this whole thread and reply to my post you dumb fuck.

I'm a random passer by but it doesn't take a genius to figure out you're blowing shit outta your ass. Sounds like you blew your brains outta your ass as well.

work was rendered he gets a partial refund only. and i've already sent him a good faith gesture via bitcoin. if you people wanna take the side of this guy who don't know how to conduct proper business then so be it. but he will be getting a partial refund only.

He sent me \$15 everyone, out of the \$50 I sent him via PayPal.

Anyways, beware. Hopefully nobody else does business with this guy.

And @T.W.S if you'd like to resolve this and offer me a full refund we can put this behind us, and in the future I wouldn't take on projects you have no experience with and if you want to get anywhere in the professional world you should learn how to conduct yourself better.

You're trying to claim you know how to conduct proper business? He who tells his customers to shut the fuck up for the no reason, can't even fulfill simple wishes made by the client?

Please stop you're only making this worse on yourself.

to vape juice. I actually have 2 Magical butter machines <https://magicalbutter.com/> which you can turn weed into tinctures, cooking oil, cannabutter and other stuff with. If you want I can make part of your payment one of them. They retail at \$120-\$180 but I'd make it \$100 of your payment (if you want)

[2/8/2018 4:35:27 AM] Tyler: Also if theres anyway we could speed up development and for you to prioritize this project to make it be done in around a week I'd be willing to send you one for completely free.

[2/8/2018 4:38:25 AM] Tyler: Also would proxy support + multi-threading be hard to add?

[2/9/2018 10:04:50 AM] TWS: not even sure what it's for

[2/9/2018 10:06:16 AM] Tyler: But all good, and I'm looking at alternative options as doing this as more of a service instead and need a few months of planning. Could I get that \$50 back for the time being?

[2/9/2018 10:08:45 AM] TWS: but if you wanted me to put more into dedicated towards yours i could is why i asked for an extra 50

[2/9/2018 10:08:53 AM] Tyler: So I'd really just prefer a refund or a partial refund

[2/9/2018 10:10:29 AM] TWS: i'm so confused now just the other day you were offering me physical items as payment now your wanting to scrap it or not go with a dev so lost but anyways ill show you whats been done when i get home.

[2/9/2018 10:11:14 AM] Tyler: Yeah I did some extensive research and I can make a lot more offering it as a case by case service

[2/9/2018 10:11:23 AM] Tyler: And how many hours have you put into it so far

[2/9/2018 10:12:19 AM] TWS: i don't work hourly man this is why we had the flat rate of 300 set and you went on to set it goal oreinted but hey i got a few of my employees calling for me ill hit you up when i get home and we will see what we can do.

[2/9/2018 10:13:40 AM] Tyler: Sounds good

[2/9/2018 5:19:52 PM] Tyler: What's up man so let's talk about this. I'm moving from a software solution to more of a service where I outsource the work to india to find very qualified leads for businesses. Sorry for the waste of my time but I'm really low on money right now and getting this whole thing off the grounds really stressful. Could you please send the \$50 back or send back the amount - how many hours you worked on it and provide the source for whatever you did.

[2/9/2018 6:23:42 PM] TWS: your time was wasted more like mine was that was in my post when you hired me dude

[2/9/2018 6:23:52 PM] TWS: and ill provide screen shots and source here shortly

[2/9/2018 6:24:34 PM] TWS: at the time being i don't have 50 in my paypal, because i thought you were on the up and up and out sourcing to india good luck with that they charge more then us with the exchange rate they know they can milk jobs and price hike it

[2/9/2018 6:24:45 PM] TWS: give me a few and ill provide you with proofs

[2/9/2018 6:24:49 PM] TWS: i just got in from work

[2/9/2018 6:25:04 PM] TWS: but it was actually my time that was wasted my dude

[2/9/2018 6:27:39 PM] Tyler: No not outsourcing programming but the actual work and it'll be more of cold calling. I'd like to see what you got done on the software so far and we can work out a price to be refunded.

[2/9/2018 6:29:02 PM] TWS: truth be told i finished it in record time man. for yelp only

[2/9/2018 6:29:06 PM] TWS: i'm gathering stuff

[2/9/2018 6:29:15 PM] TWS: i finished it because i needed the full payment

The chat log you posted before in the OP shows him asking genuine questions and you typing way more than him.

it's the rate at witch he was typing is why i started cussing at him he would not calm down. long enough for me to get a full sentence in or collect my thoughts. if you folks wanna claim that hes the one who was wronged so be it but i was wronged as well thinking i had a legitiment project serves me right for taking a project off of a forum.

While it's true that it is an uncommon way of paying it was only a suggestion and I don't see any issue with this. What I do see an issue with is your behaviour towards your clients and your inability to provide any sort of valid proof.

You know T.W.S when you make a CA against someone and people take the side of the person you are accusing of things (which is very clearly happening right now) you should re-consider who is in the wrong here. You need to give Tyler a refund period.

Make .GIFs with Gyazo

Download Gyazo

Just posting this as the thread is slowly going towards repeating the same, childish things. OP has stated that he can't post .GIFs multiple times, yet nobody has suggested this free tool.

Either way, carry on. Just poking my head in here

Was OP actually scammed? I've read it three times now, seems more like a community alert (in title).

Doesn't belong in this section.

If you were actually scammed - Put the amount in OP title!

truth is hes trying to make me look like a scammer when i did no such thing i sent him a partial refund of \$35.00 20 via paypal and 15 via bitcoin the 15 in bitcoin with the 1.5 exchange ratio will net him more then 35 so hes just complaining to complain now. i'm in no way shape or form guilty of scamming the guy. hes just being a typical skid and crying when he knows nothing about code work. his entire reason was he wants to out source it as a service to india anyone who knows saying the words out sourcing to a developer is fighting words. so theres that.

As I mentioned in his report thread he will get it as for vacation bans not helping me i think it helped to calm his mind and my mind and come back to every thing with a fresh mind.

It just shows how much of a liar, distrusted and trashy coder you are. You're full of excuses with your story all over the place while Tyler is being calm and requesting reasonable things. Keep calling him a kid and unprofessional but EVERYONE on this thread can easily see you're the problem lol.

Not to mention negging everyone that negged you for something beyond reasonable shows that you're not willing to admit you're wrong and most likely deceptive.

You seem to forget an actual coder had a look at your code as disprooved it. At which point you crawled into a little hole and vacation banned. You still need to give that guy a full refund and shut down your shitty coding service.

is that not what I said in that reply on the other thread did I stutter? does my typing have a speech impediment?

I vacation banned my self not as a way of crawling into a hole but as a way of giving the situation a bit of time to calm down also just because an actual coder disproved. does not mean I'm going to shut down completely regardless to what people on here may think I've got 25 years of coding under my belt, just because of one unhappy client it does not mean i'm fully going to shut down i'm just shutting down on HF. because people on here don't take the chance to give another a fair shake. only thing that seemed to have happend during this entire process is getting a bunch of people who seem to want to keep instigating the situation and that solves nothing but brings more hassles and more drama.
