Thread: [FREE Shell GAS Method](#)

I'm tired of seeing other idiots sell this on the other forum. It's literally stupid.

It involves <https://www.fuelrewards.com/fuelrewards> - and them having a promotion until March.

Before recent update, all you had to do was make a "main" account, then sign up using the ref link several times linking mastercards. You could use fake mastercard details - plenty sites provided them etc.

Anyway, with new update literally only difference is you need to change IP. You need to use a VPN or Proxy every 5 new accounts.

5 new accounts = New IP = No flag on the account, balance updates within 24-48 hours. You get 25 cents off per gallon PER account you add to the "main" with a CARD added. (Just use fakenamgenerator.. and use the mastercard it provides.)

I'm warning everyone now do not BUY the methods from the other site. They are literally all the same shit but they want you to go to certain sites and "invest" x amount of monies for "VPN" or Proxies. It's stupid as fuck.

PS. I just saved you \$10-\$20 bucks as that is what is being sold for, thank me by "liking/thanking" the thread yeye

Is there a proper detailed guide?

Just so everyone knows, this is literally the old method. You already had to switch IPs every 5 accounts with the old method.

It's only \$10 anyways, and you make money off selling the codes. A lot of money. I don't get what's so frustrating about people selling it lol.
