[What is Limitless Trading?](#)

Limitless Trading is a group of experienced and amateur traders who are looking to converse with people who actually trade full time or part time. They want to learn and share their knowledge, we pride our self on the community that we have everyone contributes, its not a bunch of people in broken English begging for signals and money.

What I am offering (\$50/Monthly)

Quote:When I first started trading I didn't understand the market and lost a lot of money. If I would have found this chat room first I would have learned the knowledge and skills of risk management that I now have BEFORE going into the market. Don't make the same mistake I did! Become a part of a chat room that is going to support you and teach you every step of the way, before risking a single dollar.

Quote:I had previously joined a group where Ivan G was the leader of the Stock Chat. Under his leadership, I literally flipped my portfolio around within a week and became profitable. Now that he has started Limitless Trading, my knowledge and profitability has only skyrocketed. The community here is an invaluable asset to have!

Quote:Unlike many large, conventional chatrooms where it can often be difficult if not downright impossible to ask for personalized guidance, Limitless Trading Group is comprised of down-to-earth, approachable people who want to help you reach the holy grail of consistent profitability and optimize your success as a trader no matter where you are.

Quote:I started getting into trading when I saw Ivan posts on Facebook from time. I ask a ton of questions and he would always try his best to answer them for me. I joined this group the first week I started trading. All I did was listen and ask questions here and there and really learned a lot. I have broken even these first two weeks of trading and I am up 3% my on my first day of my third week. Everyone is super helpful and it's really great to hear how the process thing. Make sure to join this team you won't regret it!
