Nope, Before creating the topic, I checked all the goods on my channel for 2 months, the account wasnt banned and the twitch sent money for it.

As you want. I can cheat it in 10 minutes or I can cheat it for 1 week.

Carbohydrates - February 14, 2018, 3:48 pm

seems interesting enough, I would need to get affiliate on twitch before I do this!

Any tips on how to?

or could I just buy an account and change the username?

I would likely buy 50 subs. is it 50 subs for 1 month

so for \$35 I would get $2.50 \times 50 = \$125$

vGospel - February 14, 2018, 5:34 pm

Why wouldn't you just use these on yourself? :P

You only need to get the achievements for it within 30 days of each other.

Viewbot 10-20 viewers 7 days in a row and get some fake followers. Simple as that

I would buy 50 subs easily and more if these actually are real..

I don't think Bits/Subs are allowed there was a guy who did this on a much bigger scale and was banned for "ad fraud" I bieleve.

I advise you to cheat 5 subs each day for a month. It is desirable that you run the stream.

How do subs earn money? I know what twitch is, but haven't watched any streams for months and months. Mind informing me?

Did a wee bit of research. Would you do me a bulk deal on 10,000 bits?

For every sub you will get 2.5\$. In 1 month twitch will pay you for them.

While i havent 10,000 bits. Add to Skype and I'll let you know when I have it.

I wont be here tomorrow day and night. As soon as I get back to finish all orders. I apologize, unforeseen circumstances.

The Sanity - February 18, 2018, 8:35 pm

These Twitch Bits are farmed via ad-fraud because you have to watch ads in order to get those bits. Also, EnigmaCenter was a member who sold them here a few months ago, some of his clients who bought his service early on did receive payment but all of his clients after the first month or two did not get payouts and were banned (story goes that there was someone who bought \$2000 worth of bits and got banned and no payout).

Anyways, ad-fraud is not allowed and you are 100% committing ad fraud by having fraudulent bits on your various Twitch accounts, and also I know the method you use to obtain them, so you should remove that part of your sales thread or you will have it removed, you can still sell followers/accounts etc, but ad fraud related services will get you banned off this forum pretty quick.

my Twitch Bits are NOT farmed via ad-fraud.

(Feb 20, 2018 06:00 AM)baxyc666 Wrote: [\[CITE\]](#) my Twitch Bits are NOT farmed via ad-fraud.

There is only 1 method to obtain Twitch bits without paying for them directly and that is through Twitch's rewards system where they award bits in exchange for ad-watching.

Whether you're botting the ads or using an exploit you're tricking Twitch into giving you money (\$bits\$) in exchange for viewing ads, so if you're using a bot to mass view ads OR even if you're not viewing ads but tricking them into thinking you were, that's fraudulent, either way, good luck because Twitch will catch you just like they caught all of Enigma's clients.

There's no way to get bits without ad-fraud or credit-fraud by botting/exploiting ads or purchasing bits and charging back your credit card afterwards to reverse the payment, there's simply no other way.

What a pity that in both cases you are wrong.

GrandpaSherman - February 21, 2018, 5:34 pm

People should be careful about this. This is a large risk; 45/60 day payouts, twitch knows about all of these fraud methods, average affiliates don't have 10+ subs let alone 50 a month etc. plus all 100% twitch prime.

If you're an affiliate either don't go overboard (5-15 subs), or stay with bits and keep it safe. If you're partnered you can go a little more balls out. Followers views all that are completely fine. I might hit you up for some oauth accounts

I also have never tested the limits of how many subs you can successfully get per month, but I have been banned for trying.

Mate, i did 150 subs and 20k bits per month. (2 month ago). Twitch paid me and account wasnt banned.

ofc if you have 1000 followers you shouldnt order 150 subs.(but I wont refuse this order)

honestly nowadays with millions of people trying to become a full time streamer, i think it would make sense to viewbot yourself an extra 20-30 viewers

Great service. Its even better that they make you wait 60 days(twitch) to get the money after it reaches \$100+ because now I can stack it on :) At \$160 right now. Gonna drop another \$70 on 100 subs to get up to \$360 payout.

3500 Bits - Received as ordered
50 Twitch Prime Subs - Received +2 extra
250 Chat Bots. - Received as ordered

The Software for the Chatters is not that good for real Text chatting as you are limited to a few words.

You cannot send large texts with it but for some „Hype“ spamming it's good enough.

Speed

I sent him a message saying I wanted to buy some subs at 10:08 am, he responded back at 10:21 am and from there the subs were delivered with screenshot proof at 10:38 am.

Quality

I bought a small amount to test out so they were delivered instantly, the subs I got are HQ accounts that look like real accounts.

Seller's Personality

He was straight to the point and respectful, I will have no problem with doing business with him in the future.

tiki104 - September 6, 2018, 11:06 am

If you're an affiliate either don't go overboard (5-15 subs), or stay with bits and keep it safe. If you're partnered you can go a little more balls out. Followers views all that are completely fine. I might hit you up for some oauth accounts

I also have never tested the limits of how many subs you can successfully get per month, but I have been banned for trying.

How many subs did you get banned for trying with? Did you have them trickled? Thanks.

BenCardson - December 4, 2018, 10:20 am

I already +Vouched on this thread because his subs were delivered to my channel. I want to give him another +Vouch because I got paid out by Twitch. So far I've been running his sub service at around 200 drip feed for 2-3 months now without a ban or delayed/rejected payout. I trust him so much that I paid him in advance for more subs so there is never a day where I don't get any subs

If you are a streamer just use this to make cash while you're grinding to the top. He wants to make money and he does that using the same method/service on himself and selling his leftovers at a discounted rate so we make money. Obviously, he can't use all the accounts on himself because he would get banned. If anything OP will get banned first, warn his buyers, and figure out a new method. But that probably won't happen because it is hard to prove. NO OTHER BUYER IS DOING ANYTHING BETTER THAN HIM ON THIS FORUM THE OTHER POSTS ARE LYING.

Note: Reason I'm not screenshotting payout because I'm worried about Twitch seeing this and tracking my payout

@baxyc666 thanks for allowing me to make money with you :D
