Thread: [Advice Needed Crypter No dependencies , bypass runtime](#)

theba - February 17, 2018, 2:22 am

Hey guys , Im looking for absolutely native crypter , no dependencies and bypassing on runtime.
Can you help me out? such thing exist ?
Also what does it mean - " bypass WD " - what is this WD ?

Paid of course ;)

Hey there,

Based on your preference, here's what I've choose for you:

<https://hackforums.net/showthread.php?tid=5779367> - fuckav.xyz

<https://hackforums.net/showthread.php?tid=5699668> - Spartan

<https://hackforums.net/showthread.php?tid=5547074> - JanaDark

<https://hackforums.net/showthread.php?tid=5797366> - Imperium

Go to all of those and ask for test if they really has the runtime bypass features.

WD means Windows Defendor as the past month, Windows Defender has been a pain in the ass in the cryptography section.

What a friendly and helpful user in this cruel World;)
Thank you for gathering this info

This crypter has one disadvantage for me.. it doesnt have a binder so you can only crypt server

inyourmemory - February 20, 2018, 10:37 am

Janajunk is trash and doesnt bypass anything

Isn't the Stub coded in VB6 ?

theba - February 22, 2018, 11:25 pm

None of them is taken in consideration
Still looking for Good crypter
