Thread: [What is your #1 album of all time?](#)

Just answer the title question. Even if you think you have more than 1, just post 1.

Go!

I think mine would be The Roots's 1999 album Things Fall Apart.

Very tough question, I listen to a lot of things across several genres. Hard to pick one album, however if there was a album, or at least a band, that I hands down always recommend to everyone since they really are underrated with lyrics to live by, it'd be them:

I don't think I could possibly pick one, I could probably list my favourite albums throughout each genre though.

So many great albums to choose from, but if I for some strange reason could only play one album for the rest of my life it has to be:

Peter Green's Fleetwood Mac

With songs like "I LOVED ANOTHER WOMAN"

If not, it would be KAYTRANADA 99.9%

I'll be the first to admit it's not for everyone, some of the stuff on that album is really out there (ie Pork Soda, Welcome To This World). But, I love music that you can't quite place a label on as well as good bass lines so the album is amazing for me.

Sun Diego. - February 19, 2018, 3:47 pm

Spongebozz / Sun Diego- Started from the Bottom / Apocalyptic Infinity

Nobody knows about it probably cause it's german.
