Only 7 episodes are out so far, if all of them were out I'm sure I would have binged it all in one go. It's sorta slice of life, haven't looked at the tags but it's amazing. Watch it!!

Idk about this one. I've been watching it because a friend said it was really good. I'm enjoying it enough that I'm still watching it, but its not completely grabbing my attention. I've yet to watch ep7, but I am curious what will happen when they reach Antarctica.

I haven't seen much recent anime but it's a really nice refresher for me
