Thread: [Hello, I'm HYPEBEAST](#)

HYPEBEAST INC. - February 21, 2018, 6:04 pm

Hello,

What's going on guys, found this forum while searching on Google and I've heard of it before so I figured I would join. I'm pretty new around here (just joined) but not new to forums in general.

As you can probably tell by my username, I'm a hypebeast, is there a clothing section on this forum?

Please tell me some things I should know about this forum before getting started on my journey.

Thanks for taking time to read this!

Uhm basically all you need to know is in here:

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

I actually already began to read that as I like to familiarize myself with rules of websites when joining, especially forums.

Change your dp. Only leave high quality (HQ) posts. Don't flame people. Don't bitch about negative rep. Get positive rep by helping others as much as possible, never ask for rep. Make friends. Share information.

Just don't be a dick and all will be sweet :)

Also suggest making HackForums your homepage, that way you will be more active and more likely to comment on topics.

Check out "View New Posts" as a means to find new topics to add your two cents every day :)

Thanks, just learning how to navigate around this site, always causes me a little struggle from forum to forum.
