Malevolent - February 22, 2018, 1:10 am

User is offering a fake web design service.

User: <https://hackforums.net/member.php?action=profile&uid=3590764>

Thread: <https://hackforums.net/showthread.php?tid=5791382>

Deal was for \$70 total (half up front) for a simple wait list PHP web app.

Current open dispute (made after I purchased on Jan. 31):

<https://hackforums.net/showthread.php?tid=5798243>

Fake community alert he opened: <https://hackforums.net/showthread.php?tid=5798230>

Imgur album: <https://imgur.com/a/LzioS>

(note: he has already tried to alter my words as seen -- why would I dox him? \$35 is not worth the trouble and it's against HF rules)

He has seen this thread: <https://imgur.com/a/G0t0q>

Do not deal.

Willing to provide any other evidence, also have PMs back and forth, but I think that's against the rules to post.

He was given more than three weeks (he himself said 1-3 weeks, 2 for the price) need I say more? Blocked me when I tried to resolve the issue.

I think his -3 on Tylers The Name says enough about his character:

Tylers The Name (214) - Last updated 02-10-2018

Negative (-3): <https://hackforums.net/showthread.php?tid=5798230> DEAL WITH CAUTION HES A BRAIN DEAD MORON WHO HAS NO PLACE ON THIS FORUM HES GOT A PARTIAL REFUND THATS ALL HES GETTING.

Would like a \$35.00 USD refund (refund in full) as nothing was rendered.

I hope that in the future the marketplace will have a group to suspend market privileges until major disputes (multi-dispute) members have resolved said disputes.

Looks like he vacation banned himself due to this.

Pretty obviously guilty.

Malevolent - February 23, 2018, 1:28 pm

Just wanted to make sure this went up to the top again.

Do not deal when he comes back from his "vacation" ban.

Damn there are several good designers and developers are here but you've choosen a shitty one. Anyways what's done is done, next time you need something done in php, contact kitkat707. He's the best and honest dev out there.

Malevolent - February 24, 2018, 3:09 pm

Yeah, wish I would have just gone with somebody well known.

This guy is a scam bag.

Elitas - February 25, 2018, 10:17 am

Sorry for your loss, hopefully this dispute will be resolved soon and you can get your full refund. I believe the user in question has multiple open scam reports.

Tylers The Name - February 27, 2018, 3:16 pm

Sorry to see this, yeah this user wasted a good 5 hours of my time (which is worth much more than I got scammed for) and I know a few other people got scammed by him as well.

Atleast no reasonable person will ever do business with him on this forums again.

Sorry for your loss and best of luck finding a real developer.

Malevolent - March 7, 2018, 7:26 pm

Hopefully no one else makes the mistake we did.

At least you got a partial refund.

Malevolent - April 8, 2018, 8:09 pm

User was banned for like the last four months.

Weird how convenient that was, huh?

As a follow up to what malevolent said what he says is true no payment has been made as of yet I've been working in my real job offline as a healthcare professional, I'm currently trying to get transportation in order to get to a prepay service to pay him back, we have been speaking off and on

in a messaging service for awhile now. he has been completely patient with me and relax and has still asked me for help a few times only me & him know the technical aspects of why I'm unable to give him the in question \$35.00 back in regards I've also told him if he ever needed anything else done with out so many other projects being piled up on me I would.

regardless to past comments I am a freelancer who has learned all this on his own when it comes to web design & information technology for years, and when pushed by 2 other people to get work done off the advice of a petty childish member who did not follow my old services thread witch was wrong with me I am man enough to admit my no refunds policy and i would only give partial refunds if they did not like it was severely out of line pertaining to the nature of the forum it's self I admit my faults in general and my deception and I did to him in private as well. Malevolent has been more understanding six I took the measly 6 month vacation ban to give the situation some time to calm down. I fully intend to right my wrongs on good old hackforums. never did I intend to make my self out to be the guy that it seemed like when push came to shove I said hit it or quit it. and that was more so wrong of me. I don't know how many more times I can go into with out making my self look under age. Malevolent you have my deepest apology's for waiting so long and for being a innocent bystander in all of this whom got caught in the cross fire. will talk to you on said messaging service this weekend to make 1 last arrangement. and give you the run down on my plan to pay you back.

I've paid this guy back a small good faith payment but yet he has made it his lifes goal to block me in my business affairs here on hf. posting slander in my partner search for a 100 percent honest business.

I created a small basic script about a year ago he was not happy with the previews and swore left and right it was not my work because there were standard names in it. hes lied to alot of you about not posting my dox information or a identification card I sent him to prove I am who i said i am stating and i quote do you actually think i believe that is real.

how this guy became rekt is beyond me. I make a small to mild gesture to him and ask him nicely after i've made an effort and he gets a stick up his well I won't go into those details.

I've blocked him on messenger because hes ignorant and has stated on several occasions he would get the police involved over 30 dollars if that is not petty childish nonsense I do not know what is I will be posting proofs. if need be but bottom line he needs to grow up I've told him on several occasions that I am on a fixed income not to mention it's hard for me to get to a place to load funds online considering I live in a town population 800 more like a village thats miles away from any where yet he turns and finds him self being blinde to the truth refuses to settle things in a peaceful manner like I've asked years ago and expects me to pay him back after he blocks attempts for me to make money in order to pay him back.

now I don't know or care about all of that but he needs to see the true nature of his way's this is not the way to go upon trying to collect funds from someone who owes them to you it's more of a way to push a person more towards not paying them back. sure yes it's been almost a year but guess what man unlike you considering you are rekt I have a life. get over your self and stop being uncivilized then maybe ill make a full on all cards on the table effort to send you a full refund.

peace.

Malevolent - December 13, 2018, 12:52 pm

Quit lying and pay me back the other \$30, then you can call it a day. Jackass.

I have multiple images of proof regarding your lies.

If anyone is interested for whatever reason, PM me and I will send them to you.

You're not the first I have had issues with. That's what happens on an open marketplace. Sometimes there are scammers, like you.

What does "dropping your dox" do for me? Nothing. I might as well hand it to the police to deal with your poor welfare ass. Such a waste of my taxes.

If you have anything worthwhile, including my \$30, feel free to PM me, otherwise I will ignore your future posts in this thread.

I understand if someone gets scammed and the only way to get the money back is to take legal actions, but most of the time its used as a weapon to make people feel scared or w/e over small stuff.

- 1) Dox'ing: Gets me nowhere, so not sure why the hell that applies here.
- 2) Calling the police: It's FRAUD. It's STEALING. It's the same as walking into a store and taking \$35 from my wallet via pick pocketing, or misrepresentation in person. It would be moronic to think otherwise.
- 3) Call bank/Paypal -- I don't have that info, so you are misinformed by your butt buddy.

Your input is not appreciated and is invalid in this case as I have been waiting for ONE YEAR to get \$35 back from this guy.

If any of the above were to have happened/have been relevant, I would have done it by now. A year is a lot of time.

So here's the last reply I will send your way.

I have not threatened to drop your dox. It has been a year without payment and year without your dox being posted.

I don't have a reason to call the police, but fuck you for taking an interest free loan of \$35 and having the nerve to be a dick about it.

We are not coming to an agreement because your ass won't send me thirty dollars.

You are not working fast. It has been a fucking year you jackass.

Your service was fraudulent. Even if it was "taking on too many projects," a true service/business owner would have refunded me immediately upon figuring out. NOT A YEAR LATER. You did not outsource anything. You sent me an awful HTML (non-CSS, just a plain shitty HTML page) that was a fake work in progress.

I've been "standing by" for a year, don't act like you're suddenly just going to pay me unless you plan on performing a bigger scam here.

Google Pay is a massively stable processor. Google is worth EONS more in capital value than Paypal will EVER be.

Last reply to you and last reply to your buddy here.

I will continue to ensure you do very little dealing here until this is resolved otherwise.

Quite honestly, I should have charged you the t-bill rate worth of interest on this.

Well, I'll let you cry to yourself.
