Thread: [Getting Reply Notifications from a Thread I'm Not Subscribed to?](#)

Wirt - February 22, 2018, 6:51 am

Hi all. I'm getting PMs from the MyBB bot for a thread I'm not subscribed to, but in the message the bot sends me it tells me that I am. Has anyone experienced this and know a fix? Thanks

Can you please link the thread for me?

You are subscribed to a thread in Vices.

EDIT: Yeah, that's the one in the database says you're subscribed.

That's weird, I don't recall pressing anything to add it to my subscriptions, I checked my subscriptions before too and it didn't show anything yesterday I don't believe

Thanks. Probably just an error somewhere on my part
