Would like to receive a vouch copy and review it, to see if it's a good guide and it's legit (since recently there are a lot of people selling public/leaked stuff).

Hope this is a good method :P

No vouch copies will be given out. I am awaiting a detailed review from a reputable user that has received a copy of the method on another site.

Though there should be no question of legitimacy, as I have made thousands from these methods and can ensure they are unique.

What to say?

I just bought this guide (with full support) 4 days ago, and I earned twice as much as it costs. It's simple and working, and his support is really useful, so don't save your money. Spend few dollars more, you'll get them back soon.

And I want to point out that he's the only one who says "100% SUCCESS or REFUND", so it means you'll earn surely, or he wouldn't do that.

Absolutely recommended.

Thanks for the vouch!

bustharmods - February 5, 2019, 6:09 am

Just pointing out, i bought this when i first started e whoring, i made a good amount of money in the first day, when i went into it deeper i realised that these methods are WELL WELL known and public, very basic, will you make money? Yes, infact i still use these methods, and if your good at it you can pull a good sum of money out of your ass like magic (not thousands, just a hundred or two) but i wouldnt say its worth the money now once im more aware of what i bought, just my honest opinion.

I highly doubt you purchased the guide; if you did, post your payment receipt.

Even assuming that you did, these methods are not well known like you claim. The guide was put together by testing dozens of methods and figuring out what works through trial and error. I've personally earned thousands and have customers that have earned thousands, so you're speculation is irrelevant. You're probably some multi whose upset their e-whoring guide can't get as many sales. Shame on you ?

NOTE: There i was when i first started e whoring, when i didnt realise it was public ^^

I have even PMed you before for the support, you know me, my email is the same as my name, and you can go check that for yourself, these methods are literally

like kikfriender, you make it sound like there is more work that goes into it and its 100% very HQ never done before, your border line running a scam, its sad to see you go to such a extent to protect

your pretty much public e books reputation.

Again, as i mentioned prior, does this e whore book work? Yes, will you make profit? Thats dependant on your E Whore skills, the whole point what im trying to push though is that this IS public information, you can deny anything you want, i already have proof.

I said payment receipt, not a screenshot of you vouching for my guide lmao.

I'm very sorry this "public" e-book costs only \$25 and has made you hundreds and other people thousands. That sounds like a terrible investment!

Perhaps if you spent less time sales trashing and more time utilizing the methods, you could see how unsaturated and profitable they are.

I Never said they were not profitable, im saying that its false advertising calling something "The ultimate guide" Is selling information for 25\$ that is in 90% of all PUBLIC E-Books for kik that you can find on here for FREE, has exactly the information you have in your ebook, its a copy and pasted guide with a few adjustments.
